## Room Visiting Policy

Residents of Grant Hall and Childs Hall are permitted to receive guests in their rooms. However, guests of the opposite sex are permitted to visit in rooms **only** under supervision and during specified visiting hours - three nights a week from 7:00 pm to 11:00 pm - provided they have been invited to do so by the room's resident and that they sign-in with the staff member on duty. During these visiting hours, the Resident Assistant (RA) on duty will circulate through the halls. Students receiving guests must: keep the door fully open, leave the doorway free from all obstructions, have lights on, and act according to the college's moral beliefs and policies.

Additionally, a floor, or portion of a floor in each residence hall may be designated as "non-visiting" (visiting by guests of the opposite sex is not permitted in that area).

Please place a check mark in the box indicating your housing preference:

- I would prefer to live on a floor or portion of a floor where open house visiting **is** permitted.
- I would prefer to live on a floor or portion of a floor where open house visiting **is not** permitted.
- No preference.

## Special Needs
