Master of Divinity Courses .....	71

## Undergraduate Courses

The College administration will make every effort to offer the courses listed in this catalog but reserves the right to cancel courses if necessary.

Students may take courses above their year level only with the permission of both the instructor and the appropriate department chair.

Descriptors in parentheses following a title indicate which skills or disciplines the course fills in the Core requirements:

- (EE) Experiential Education
- (EEC) Experiential Education Component
- (IL) Information Literacy
- (PP) Public Presentation
- (QR) Quantitative Reasoning
- (W) Writing Intensive

## Anthropology

---

### Anthropology 110. An Introduction to Cultural Anthropology.

Introduction to the theories and methods of cultural anthropology, and to the concept of culture. Though not a world cultures course, focuses on the basic institutions of culture such as ritual, technology, and progress as predicates for modern human society.

3 Credits.

### Anthropology/History 211. Artifacts, Archaeology, and Museums. (W)

Introduction to the theories and methods used to interpret how objects provide evidence for history and express a society's values, ideas, and attitudes. Includes examination of archaeological method and ethics, and the use of objects in a museum setting. Use of hands-on projects and visits to Bryn Athyn's historic district and other local sites.

3 Credits.

### Anthropology 213. World Pre-History.

Using world archaeological sites as stepping stones, creates a narrative of prehistory from Australopithecus through the advent of urban civilization in the old and new worlds. Focuses on three general revolutions in human history: 1) the emergence of the genus Homo with all its modern attributes; 2) the development of agriculture and animal husbandry during the Neolithic; 3) the coming together of humans in cities and states, and the ramifications for human society. Prerequisite: Anthropology 110 or instructor permission.

3 Credits.

### Anthropology 240. Anthropology of Religion.

This course presents a theoretical perspective on religion as a cultural phenomenon. It explores the functional relationships within a variety of belief systems. It compares them across cultures and time, and, in particular, considers their intersections with subsistence strategies and political systems. Topics include: the roles of symbols and practitioners, myth and ritual, magic and cultic practice, & secularism and fundamentalism in traditional and world religions.

3 Credits.

### **Anthropology 260. Human Evolution.**

Introduction to human evolution and physical anthropology. Areas include paleoanthropology, primatology, molecular anthropology (population genetics), and to some extent evolutionary biology. Specific issues covered include the primate roots of human behavior, brain and language evolution, new and classic fossil hominids, the origin of anatomically modern humans, and human biogenetic variations. Prerequisite: Biology 122 or instructor permission.

3 Credits.

### **Anthropology 315. The Indus Civilization.**

This seminar course focuses on northwest India and Pakistan from the beginnings of food production to the early Vedic Age. Explores what is known from archaeology and the early Vedic texts about the cultural history of the region, including the architecture, religion, material culture, and writing system of the Indus Civilization, as well as its trade relations with other urban centers of the greater Near East. Prerequisite: Anthropology 110 or instructor permission.

3 Credits.

### **Anthropology 320. Genocide.**

Seminar course on genocides in the 20th century. Focuses primarily on the cases of Ottoman Armenia, The Holocaust, and Rwanda. Through primary and secondary literature, examines the cultural context, historical background and legal frameworks, denialist projects, and memorializations. Political and psychological ramifications in the descendant communities of victims and victimizers are considered, as well as reparation processes. Prerequisite: Anthropology 110 or any history class, or instructor permission.

3 Credits.

## **Biology**

---

### **Environmental Science 105. Introduction to Sustainability.**

Introductory cross-disciplinary study of the principles of sustainability in the modern world. Topics include: the limits to economic growth, demography and its constraints on economics, ecological implications of human population growth, limits of energy consumption and production, and ecological principles in the modern world.

3 Credits.

### **Environmental Science 105 Lab. Introduction to Sustainability Lab.**

1 Credit.

### **Biology 122. Introduction to Biology: Genetics and Evolution.**

Introduction to principles of genetics and evolution; one of a two-course gateway series that is required for prospective biology majors. Includes Mendelian and non-Mendelian inheritance, quantitative genetics, evolution, natural selection, genetic drift, kin selection, speciation, molecular evolution, and phylogenetic analysis. Course concludes with a survey of the Kingdoms of life.

3 Credits.

### **Biology 122 Lab. Introduction to Biology: Genetics and Evolution Lab.**

1 Credit.

### **Biology 123. Introduction to Biology: Molecular Biology.**

The second of a two-course gateway series that is required for prospective biology majors. Biological concepts are illustrated by means of molecular biology, from storage and maintenance of biological information necessary for life to its expression in the organism to diverse applications in health, medicine and food production. Topics include a general introduction to the cell and its components, cell division and the cell cycle, DNA structure and synthesis, chromosome structure and organization, mutations and their repair, genetic engineering, transcription and its regulation, the genetic code, and translation of genetic information to proteins. Prerequisite: Chemistry 101L or High School Chemistry.

3 Credits.

### **Biology 123 Lab. Introduction to Biology: Molecular Biology Lab.**

1 Credit.

### **Biology 124. Introductory Biology for Nursing Students.**

Introductory biology course for students accepted into the nursing program. The course provides an introduction to cell biology focusing on the structure and function of the plasma membrane and cellular organelles, the fundamentals of Mendelian and non-Mendelian inheritance, and the structure and function of the genetic material DNA, with an emphasis on the genetic code and how it is expressed into RNA and protein.

3 Credits.

### **Biology 210. Human Anatomy and Physiology I.**

First trimester of a two-trimester sequence dealing with the structure and function of the human body and mechanisms for maintaining homeostasis within it. Includes the study of cells, tissues, fluid and electrolyte balance, acid-base balance and integumentary, skeletal, muscular and nervous systems. Identification of anatomical structures using a “virtual” cadaver and preserved animal specimens will be required in the laboratory. Prerequisites: High School Chemistry and Biology 122 and 123, with a grade of “C” or better in each.

3 Credits.

### **Biology 210 Lab. Human Anatomy and Physiology I Lab.**

1 Credit.

### **Biology 220. Human Anatomy and Physiology II.**

Continuation of the study of the structure and function of the human body and the mechanisms for maintaining homeostasis within it. Includes the study of the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems, as well as the concepts of development and metabolism. Identification of anatomical structures using a “virtual” cadaver and preserved animal specimens will be required in the laboratory. Some hands-on dissection. Prerequisite: Biology 210 with a grade of “C” or better.

3 Credits.

### **Biology 220 Lab. Human Anatomy and Physiology II Lab.**

1 Credit.

### **Biology 225. Ornithology.**

The study of the morphology, physiology and ecology of diverse groups of birds. Includes classification, systematics and biogeography of bird taxa. Emphasis on how the study of birds aids in the understanding of fundamental biological concepts, such as evolution; and how adaptive radiation shapes form and function.

Prerequisites: Biology 122 and 123.

3 Credits.

### **Biology 225 Lab. Ornithology Lab.**

Laboratory exercises and field trips introducing fundamental field techniques, especially those used in biodiversity surveys and experimental studies.

1 Credit.

### **Biology 230. Genetics.**

Study of the process of heredity at a more advanced level than Biology 122. A problem-solving, seminar-oriented course integrating principles of evolution, classical Mendelian genetics, non-Mendelian inheritance patterns, chromosome mapping and mutations, sex determination, extra nuclear inheritance, and the following subcategories of genetics: behavioral, population, evolutionary and conservation. Prerequisites: Biology 122 and 123.

3 Credits.

### **Biology 232. Cell Structure and Function. (PP)**

Study of the structure-function relationship in cells. Illustration of molecular principles upon which cellular structure and function depend. Foundation course for all other molecular biology courses. Prerequisites: Biology 122 and 123 and Chemistry 110.

3 Credits.

### **Biology 235. Ecology.**

Study of the physical, chemical, and biological processes that determine the distribution and abundance of plants, animals, and microbial life. Energy flow, food webs, adaptation of species, population dynamics, species interactions, nutrient cycling, and ecological succession. Prerequisites: Biology 122 and 123.

3 Credits.

### **Biology 235 Lab. Ecology Lab.**

1 Credit.

### **Biology 240. Botany.**

Introductory study of plant diversity, form, and function. Topics include evolution, classification, structure, reproduction, development, and physiology in plants. Prerequisites: Biology 122 and 123.

3 Credits.

### **Biology 245. Zoology.**

Exploration of the animal kingdom, including: systematics, anatomy, and physiology. Topics consist of basic concepts of zoology, diversity of major groups of invertebrate and vertebrate animals, evolutionary relationships, structure and function of vertebrate and invertebrate organ systems, and evolutionary development of organ systems. Includes a lab with hands-on activities focused on selected taxa.

Prerequisites: Biology 122 and 123.

3 Credits.

### **Biology 245 Lab. Zoology Lab.**

1 Credit.

### **Biology 250. Microbiology.**

Introduction to the morphology, physiology, genetics, and ecology of bacteria and fungi, as well as the structure and replication of viruses. Overview of microorganisms, with emphasis on those organisms involved in the natural history of human disease. Prerequisites: Biology 122 and 123.

3 Credits.

### **Biology 250 Lab. Microbiology Lab.**

1 Credit.

### **Biology 310. Molecular Biology: DNA and Gene Expression.**

In depth study on the structure and function of the genetic material, DNA, how it is replicated and how genes are regulated and expressed. Topics include the structure of DNA and chromosomes, DNA replication, DNA damage and repair, transcription, RNA splicing, translation, transcriptional regulation in prokaryotes and eukaryotes, and the structure and function of regulatory RNAs. Prerequisites: Biology 230 and Chemistry 210.

3 Credits.

### **Biology/Chemistry 315. Principles of Biochemistry.**

Protein structure, dynamics, folding, and methods of purification and analysis. Methods of enzymology and a review of representative enzyme mechanisms. Membrane structure and function and the operation of membrane proteins in the electron transport chain and oxidative phosphorylation. A special topic of protein science explored in student projects. Prerequisites: Biology 232 and Chemistry 210.

3 Credits.

### **Biology 340. Marine Ecology. (II)**

Study of factors that influence the distribution, abundance, and diversity of marine organisms. Topics include physical characteristics of marine and coastal habitats, larval recruitment, and community interactions.

Habitats include open ocean rocky shore, tidal flats, beaches, mangrove, sub tidal areas, estuaries, and coral reefs. Prerequisites: Biology 235 and Chemistry 110.

3 Credits.

### **Biology 355. Cancer Biology.**

Focus on how cells and organs interact via biochemical signaling mechanisms. Special attention to the mechanisms that govern the cell cycle and how a disrupted cell causes cancer. Cancer and various treatments discussed. Prerequisites: Biology 230 and Biology 232.

3 Credits.

### **Biology 373. Biological Laboratory Techniques: Molecular Biology.**

Junior level biology laboratory course supporting Biology 230, 232, 310, 315, and 355. A mixture of theoretical and practical experience in techniques used in molecular biology, including PCR and cell-based cloning, nucleic acid hybridization, genomic structure analysis, proteomics, bioinformatics, protein expression and analysis, and culturing and identifying microbiological organisms. Laboratory reports and scientific writing skills integral. Co-requisite or prerequisite: Biology 230 and Biology 232.

2 Credits.

### **Biology 380. Research Seminar. (II)**

Exploration of the breadth of biology career paths and research options. Guest speakers from various biological and medical fields present their work and educational background. Students choose topics for senior project proposals and research methods for discipline specific literature searches. Senior project proposals with references are due by end of term. Discipline-specific resumes and C.V. developed. Course is pass/fail for biology majors.

1 Credit.

### Biology 490. Biology Seminar I. (II)

Broadened exposure to active areas of biology and reading current literature. Students encouraged to read and present reviews of current literature related to their senior projects. Required of seniors in the biology major and open to seniors in the ID major who are studying biology.

1 Credit.

### Biology 491. Biology Seminar II.

Review of current ethical issues in science. Integrity in biological research and publication; discussion of the use of humans and animals in research, intellectual property, and other topics. Required of seniors in the biology major and open to seniors in the ID major who are studying biology.

1 Credit.

### Biology 492. Biology Seminar III.

Public presentation of undergraduate biological research. Required of seniors in the biology major and open to seniors in the ID major who are studying biology.

1 Credit.

### Biology 495. Senior Project.

Independent research project or scholarly study under the supervision of faculty members. Topic chosen by mutual agreement between student and supervisor. Limited to and required of biology majors. Senior project proposals are required in the spring of junior year.

3 Credits.

### Biology 298, 398. Biology Internship. (EE)

Credit and requirements variable. Proposals must be approved by head of major. Students may apply for Biology 298 after one year and at least two 200- or 300-level biology courses, and for Biology 398 after two years of study and at least three 200- or 300-level biology courses and Chemistry 110/111. Course may be repeated for credit. Internships at other institutions must be applied for and arranged by the student.

Credit variable.

## Business

---

### Business 141. Accounting I.

Introduction to basic financial accounting principles, the accounting cycle, the preparation of financial statements, and the use of computer spreadsheets.

3 Credits.

### Business 142. Accounting II.

Interpretation of financial statements and the use of accounting information as a tool for making business management decisions. Use of computer spreadsheets emphasized. Prerequisite: Business 141.

3 Credits.

### **Business/Psychology 202. Human Resource Management. (PP)**

(Also known as industrial and organizational psychology.) Exploration of the application of psychology to the workplace environment, such as business, government, and non-profit organizations. Major areas of study include work motivation, teams and teamwork, personnel decision-making, performance appraisal, leadership, and diversity in terms of gender, race, and personality type. Attention given to New Church concepts of conscience, discriminatory charity, and use as they apply to adult employment in our current workforce. Prerequisite: any psychology course, and any business or economics course.  
3 Credits.

### **Business/Computer Science 215. Management Information Systems.**

This course examines how digital information can be stored and organized to benefit organizations. Topics include strategic use of information, ethical issues in handling information, software options, and concept maps for design. Tools used include spreadsheets, databases, and report writing software. Prerequisites: Computer Science 105 or permission of instructor.  
3 Credits.

### **Business/Writing 220. Business Communications. (W)**

Business Communications is a workplace-oriented course designed to help students develop and refine the written and oral skills necessary to communicate effectively in professional settings. Students will review the purpose and style of business writing and complete a variety of focused writing exercises based on work settings and scenarios. Students will plan, compose, and analyze letters, memoranda, and electronic messages. They will also prepare and deliver brief oral presentations, collaborate with others, and revise business communication. Prerequisite: Writing 101.  
3 Credits.

### **Business 254. Principles of Marketing.**

Focus on customer behavior, promotion, channels of distribution, product, and pricing, with emphasis on formulating marketing plans and strategies in a global and culturally diverse environment.  
3 Credits.

### **Business 256. Principles of Sales.**

In this course, the student will learn about assessing customer needs, developing account relationships and implementing effective sales strategies. During the course students will return to the theme of approaching sales with honesty and integrity, both from a practical and moral perspective. This course will cover the broader role sales communication plays in bringing people and the products and services they need together, not just the narrow skills required to convince the customer to make a purchase. Prerequisite: Communication 105. Recommended: Business 254.  
3 Credits.

### **Business 257. Principles of Management.**

Fundamentals of management including the contributions of F.W. Taylor, Peter F. Drucker, and W. Edwards Deming. Special attention to business ethics, leadership, the Quality Movement, and ISO Teamwork 9000 certification. Group projects, business seminars.  
3 Credits.

### **Business 264. Sports Marketing.**

This course will study the marketing efforts within the sports industry, including the understanding of the sports customer, and promotional and marketing strategies. Topics include fan behavior, ticketing, advertising, sponsorship, licensing, endorsements, public relations, hospitality, social media, and event management. Prerequisite: any economics course. Bus254 and Bus267 recommended.  
3 Credits.

### **Business 267. Introduction to Sports Management.**

This course highlights the need for trained sport management professionals by examining the history of sport. This course also provides analysis of effective management strategies and the body of knowledge associated with pursuing a career as a manager in the sport industry. Functional management, strategic planning, decision making, leadership style, managing conflict and change, motivation of a workforce, and career opportunities in different sport environments will be explored. Prerequisite: any science or any economics or any business principles course.  
3 Credits.

### **Business/Environmental Science 272. Drone Applications in Business and Science.**

Principles of applications of new technology in all possible fields, taking advantage of new FAA rule 107 provisions. The course explores current legislation and FAA rules, current innovation in drone use, limits of current off-the-shelf technologies, creative problem solving and business plan development.  
3 Credits.

### **Business 290. Internship Preparation Seminar.**

This course will introduce the requirements for internships, including the learning plan, journal entries, final projects, and relation to academic study. Students will learn employment related skills including: networking, interviewing, resume creation, attendance requirements, professional appearance, professional conduct, confidentiality, and maintaining ongoing relationships.  
1.5 Credits.

### **Business 301. Business Ethics. (Moral, PP)**

The analysis of moral principles and their application to decision making in business. Includes an overview of philosophical and theological ethical theories, including New Church ethics. Major focus on the analysis of ethical concerns in actual case studies from business, involving issues such as downsizing, whistle-blowing, competition vs. cooperation, and social responsibility. Communication 105 or any other public presentation course is recommended before taking this course.  
3 Credits.

### **Business 302. Corporate Social Responsibility.**

This course includes application of New Church/Swedenborgian ethical responsibility in business strategic planning and management. Particular focus on corporate leaders who are using an ethical worldview when partnering with government regulators, donating to non-profits through foundations, or managing sustainable supply chains. Students will strengthen their teamwork skills in various class projects. Ethical reasoning theories are drawn from psychology and theology to explain the socially responsible actions of corporate leaders.  
3 Credits.

### **Business 305. Business Seminar.**

A seminar course featuring speakers from a variety of professional backgrounds. Students will be expected to interview and introduce these speakers, and lead follow-up discussions on the material they present. May be repeated for credit.

1.5 Credits.

### **Business 320. Financial Management. (QR)**

Introduction to business finance, the role of the chief financial officer, and financial tools used by management. Emphasis on management of revenue and expenses, application of basic financial concepts to the solution of organizational problems, analysis of the short and long-term financial needs of an organization, and selection of most feasible course of action to secure best possible financial outcome and allocation of resources. Topics of present value, stock and bond valuation, capital budgeting, financial forecasting, and capital structures also examined. Prerequisite: Business 141.

3 Credits.

### **Business 321. Advanced Financial Management.**

*In development.*

### **Business 327. International Financial Management.**

This course provides an overview of international financial markets as well as presenting key challenges often faced in international financial management. Topics include import and export financing, measuring and managing foreign exchange exposure, international financial markets and banking, issues with raising capital internationally, insurance and taxation issues. Prerequisites: any economics course and Bus320, or permission of the instructor.

3 Credits.

### **Business 351. Introduction to Business Law.**

Legal enforcement of obligations and the function of law in modern business. The establishment and enforcement of contractual obligations. The establishment of an agency relationship and its effect on third parties.

3 Credits.

### **Business 354. Marketing Research.**

Review of methodologies for gathering and analyzing information to guide management in marketing decisions. Formulation of problem statements, identification of data sources, data collection, demining and applying the appropriate analysis technique, creation of actionable management reports understanding of how reports are used to make decisions and influence strategy. Prerequisite: Business 254 and Mathematics 130.

3 Credits.

### **Business/Mathematics 380. Linear Models and Methods for Optimization. (QR)**

Introduction to basic methods of operations research. Review of linear systems; linear programming, including the simplex algorithm, duality, and sensitivity analysis; formulation of integer programs; transportation and scheduling problems. Prerequisite: Mathematics 240 and competence in programming.

3 Credits.

### **Business 381. Operations and Supply Chain Management.**

In this course, the student will learn the foundational concepts behind converting raw materials, labor, and capital into the goods and services customers demand. Students will explore a variety of managerial techniques and computer technologies common to operations and supply chain management. Topics include inventory, quality and logistics control, transportation, facility layout, process planning, product and service design, forecasting and scheduling. These subjects will be approached from the operational and supervisory perspective.

3 Credits.

### **Business 390. Research Seminar. (II)**

For juniors in the Business Major. Focus on preparing to do the senior capstone project. Explore topics and research questions. Research scholarly sources related to a chosen topic. Formulate draft thesis statement based on interest and research.

2 Credits.

### **Business 493. Senior Literature Review.**

General guidance in continuing research and review literature related to the chosen topic for the senior capstone project, Support for crafting a sound and interesting argument, resulting in an outline of main points for the project. Prerequisite: Business 390.

2 Credits.

### **Business 494. Senior Seminar I.**

For seniors in the Business Major. Focus on developing a spiritual perspective on the student's capstone project using Swedenborgian and other principles. Prerequisite: Business 390.

1 Credit.

### **Business 495. Senior Capstone Project.**

Capstone experience for the Interdisciplinary Major. Writing of the senior project based on the research and outline produced in Business 493. Prerequisites: Business 493 and Business 494.

2 Credits.

### **Business 496. Senior Seminar II.**

For seniors in the Business Major. Public presentation of senior project. Career planning and portfolio development. Pass/Fail. Prerequisite: C– or better in Business 495.

1 Credit.

### **Business 298, 398, 498. Business Internship. (EE)**

Proposals must be approved by Internship Director. Students may apply for this internship after being accepted into a business program. Students doing internships in the summer or fall are encouraged to take the internship preparation seminar, Bus290.

Credits and requirements variable.

# Chemistry

---

## Chemistry 101. Introduction to Chemistry.

Introduction to college chemistry. Course designed with two audiences in mind-students preparing for general chemistry, and non-science majors. No prior chemical knowledge assumed, but mathematical skills equivalent to Mathematics 100 expected. Topics covered include atomic theory, organization of matter, the mole concept, naming of chemical compounds, chemical bonding and reactions, phases of matter, and kinetics.

3 Credits.

## Chemistry 101 Lab. Introduction to Chemistry Lab.

1 Credit.

## Chemistry 110. General Chemistry I.

First year chemistry course for science majors. Topics include atomic structure, quantum mechanics, electron configuration, chemical bonding, molecular geometry, and the periodic table, classifications of matter, stoichiometry, and reactions in solution, gases, and thermochemistry. First half of sequence with Chemistry 111. Prerequisite: One year of high school chemistry with a grade of C or better or Chemistry 101 or Earth Science 110.

3 Credits.

## Chemistry 110 Lab. General Chemistry I Lab.

1 Credit.

## Chemistry 111. General Chemistry II. (QR)

Continuation of Chemistry 110. Topics include intermolecular forces, physical properties of solutions, chemical kinetics, chemical equilibrium, acids and bases, solubility, thermodynamics, and electrochemistry. Prerequisite: Chemistry 110.

3 Credits.

## Chemistry 111 Lab. General Chemistry II Lab.

1 Credit.

## Chemistry 210. Organic Chemistry I.

Second year chemistry course for science majors. Topics include molecular orbital and hybrid orbital theory and bonding, chemical energetics, alkanes, alkenes, halo alkanes, alcohols, alkynes, dienes, stereochemistry, and classes of reactions and reaction mechanisms. First half of sequence with Chemistry 211. Prerequisite: Chemistry 111.

3 Credits.

## Chemistry 210 Lab. Organic Chemistry I Lab.

Includes basic techniques in organic chemistry and computer based molecular modeling.

1 Credit.

## Chemistry 211. Organic Chemistry II.

Continuation of Chemistry 210. Topics include spectrophotometric identification of organic compounds, arenes, esters, epoxides, aldehydes and ketones, carboxylic acids and acid derivatives, and condensation reactions. Emphasis on biological applications of organic chemistry. Prerequisite: Chemistry 210.

3 Credits.

### Chemistry 211 Lab. Organic Chemistry II Lab.

Includes synthetic techniques and computational chemistry.

1 Credit.

### Biology/Chemistry 315. Principles of Biochemistry.

Protein structure, dynamics, folding, and methods of purification and analysis. Methods of enzymology and a review of representative enzyme mechanisms. Membrane structure and function and the operation of membrane proteins in the electron transport chain and oxidative phosphorylation. A special topic of protein science explored in student projects. Prerequisites: Biology 232 and Chemistry 211.

3 Credits.

## Communication

---

### Communication 105. Public Speaking. (PP)

Exposure to a variety of speaking situations designed to address inhibitions and develop self-confidence.

Class work features impromptu and prepared speeches, as well as oral interpretation of literature and choral speaking. Work on voice and speech improvement as well as command of body language.

3 Credits.

### Communication 130. Foundations of Graphic Design.

Introductory study of how to create and communicate graphic ideas effectively. Covers elements of design, spatial relationships, typography, and imagery as they apply to graphic communication for print and web.

Students will develop graphic design skills (the ability to solve visual communication problems) by integrating Adobe Creative Suite software skills and foundational design concepts. Software instruction in basics of such programs as Photoshop and InDesign.

3 Credits.

### Communication 205. Intermediate Public Speaking (PP)

Advances student's ability to organize and deliver public presentations of varied kinds, using basic skills covered in Communication 105, but with introduction of more demanding professional techniques, more challenging assignments, and more fine-tuned cultivation of all skills. Some attention will also be given in this class to job interview skills. Prerequisite: Communication 105 with a grade of C or higher, or permission of the instructor.

3 Credits.

### Communication 230. Intermediate Graphic Design.

*In development.*

### Communication 231. Fundamentals of Adobe InDesign.

*In development.*

Study of the fundamentals of Adobe InDesign CC—the latest version to Adobe InDesign software—a program used to design brochures, flyers, business cards, postcards, books, and material for digital consumption. InDesign allows users to insert and size graphics, add and manipulate text, create interactive forms, and package work for commercial printing. This course is designed to take students through the program step-by-step, fostering a working knowledge of InDesign for professional, digital communication purposes.

### Communication 232. Fundamentals of Adobe Photoshop.

*In development.*

## Computer Science

---

### Computer Science 105. Introduction to Computer Systems.

Discussion of how computers and networks work; introduction to web page construction with HTML; introduction to programming with Python; introduction to database design and queries.

3 Credits.

### Computer Science 160. World Wide Web Development.

Introduction to the elements of web site design. The course includes technical aspects of web creation and design considerations for information delivery and usability. Prerequisite: Computer Science 105 or familiarity with computers.

2 Credits.

### Computer Science 180. Structured Programming.

Language elements and applications. Algorithm development. Introduction to object oriented programming.

Prerequisite: Computer Science 105 or other programming experience with permission of instructor.

3 Credits.

### Computer Science 206. Introduction to Data Science.

Skills and tools in acquiring, organizing, parsing, manipulating, and preparing data for statistical analysis.

Skills include classifying unstructured data, cleaning data, identifying useful questions, and simple analysis.

Tools include Excel, R, and Microsoft Business Intelligence software packages. Prerequisite: Any Computer Science course.

3 Credits.

### Computer Science 210. Additional Languages.

A guided self-study course in which students learn an additional language or the advanced features of a language they already know. May be taken, with different languages, up to three times. Prerequisite: Computer Science 180 and permission of instructor.

1-3 Credits.

### Business/Computer Science 215. Management Information Systems.

This course examines how digital information can be stored and organized to benefit organizations. Topics include strategic use of information, ethical issues in handling information, software options, and concept maps for design.

Tools used include spreadsheets, databases, and report writing software. Prerequisites:

Computer Science 105 or permission of instructor.

3 Credits.

### Computer Science 220. Introduction to Data Structures.

Stacks, Queues, Linked Lists, Trees, Heaps, Sorting, Searching, Complexity, Dynamic programming.

Prerequisite: Computer Science 180.

3 Credits.

### Computer Science/Mathematics 230. Statistics and Data Mining.

This project-based course builds on what was learned in Mathematics 130 with an eye on big data sets. Topics include regression analysis, least squares, and decision-making based on inference. Special cases of the regression model, analysis of variance (ANOVA) and covariance (ANCOVA), and logistic regression models will be covered. Attention will be given to conditioning data sets for analysis and summarizing data and conclusions efficiently and effectively. Throughout the course, the programming language R will be used. Prerequisites: B- or better in Mathematics 130, or Mathematics 330, or permission of department chair. 3 Credits.

### Computer Science/Mathematics 235. Discrete Structures.

Mathematical foundations for the analysis of computer systems. Recursive functions, sets, graph theory, and combinatorics. Prerequisite: Computer Science 180 or permission of instructor. 3 Credits.

### Computer Science 260. World Wide Web Languages.

Companion course with Computer Science 160. Projects will involve JavaScript, PHP, and XML. Prerequisite: Computer Science 180 or Computer Science 206. Co-requisite: Computer Science 160. 1 Credit.

### Computer Science 298, 398. Computer Science Internship. (EE)

Proposals must be approved by Internship Director. Students may apply for this internship after completing Computer Science 180 or any higher level course. Credits and requirements variable.

## Dance

---

### Dance 130. Musical Theater Dance. (EEC)

Musical Theater Dance introduces students to a variety of dance styles used in American Musical Theatre. Students will learn tap and jazz dance technique as well as specific dances from Broadway musicals choreographed by Robbins, Fosse, Champion, and more. Includes an overview of the history of Broadway, specific to dance styles and choreographers. Course culminates in a final performance. Course may be repeated once for credit. Also serves as a PE course. 1.5 Credits.

### Dance 131/231. Modern Contemporary Dance. (EEC)

Beginner (Dance 131) and Intermediate (Dance 231) course in contemporary modern dance. Students develop technique and body awareness, and deeper understanding of modern dance and its place in the art world. Explore the diversity and commonality of human experience and values through the medium of dance. Includes choreography projects and culminates in a public performance at the Fall Dance Concert. Course may be repeated once for credit. Prerequisite for Dance 231: Dance 131 or instructor's permission. Also serves as a PE course. 1.5 Credits.

### Dance 132/232. Jazz Dance. (EEC)

Beginner (Dance 132) and Intermediate (Dance 232) course in Jazz dance technique. Students learn jazz dance technique and develop creativity, flexibility, coordination, and rhythm. Dan 232 includes choreography projects, and both levels culminate in a public performance at the end-of-term concert. Course may be repeated once for credit. Prerequisite for Dance 232: Dance 132 or instructor's permission. Also serves as a PE course.

1.5 Credits.

### Dance 133/233. Tap Dance. (EEC)

Beginner (Dance 133) and Intermediate (Dance 233) course in tap dance. Introduction to and development of the fundamentals of tap dance technique. Emphasis is given to basic steps and terminology, building combinations, musicality, and coordination, leading to final performance. Course may be repeated once for credit. Prerequisite for Dance 233: Dance 133 or instructor's permission. Also serves as a PE course.

1.5 Credits.

### Dance 134/234. Ballet. (EEC)

Beginner (Dance 134) and Intermediate (Dance 234) course in ballet technique. Introduction to and development of the fundamentals of ballet technique and vocabulary, emphasizing alignment, stretching and strengthening, flexibility, kinesthetic awareness, line and movement phrases. This course culminates in a public performance at the end-of-term concert. Course may be repeated once for credit. Prerequisite for Dance 234: Dance 134 or instructor's permission. Also serves as a PE course.

1.5 Credits.

### Dance 160/260/360. Dance Ensemble. (EEC)

A dance repertory course for the performing artist. Rehearsing and performing pieces choreographed by faculty and guest artists. Styles may include contemporary, jazz, hip-hop, ballet, and/or tap. Each student will be involved in several different pieces of choreography. Course culminates in public performance. Dance 260 includes collaboration on a choreography project or a solo choreography project. Dance 360 involves choreographing and teaching a group piece of choreography to the class to be performed at the end of term concert. Course may be repeated for credit.

1.5 Credits.

### Dance 240. Creative Movement and the Young Child.

This course will explore ways in which children develop through creative movement activities based on developmentally appropriate practice. Special emphasis will be placed on integrating creative movement with other learning activities. Students will have the opportunity to work on projects that incorporate creative movement with their own areas of interest as potential teachers/caregivers. Students will also explore multicultural elements of dance and movement.

1.5 Credits.

### Dance 241. History of Twentieth-Century American Dance.

Survey of concert dance forms (ballet, modern/contemporary, jazz/musical theatre, tap in America in the 20<sup>th</sup> century. Course includes readings, lectures, films, discussions, and analysis of individual styles and cultural trends. Course culminates in a research project on a specific dance form or choreographer, focusing on how the form or individual developed in relation to cultural trends.

3 Credits.

### Dance 331. Advanced Modern Contemporary Dance. (EEC)

Students continue to develop as dancers through learning more complex technique, progressions, and combinations, as well as engaging in improvisational exercises. Emphasis is on increasing accuracy of articulation, range of movement, and moving the body as a cohesive unit. Includes critique of modern and contemporary dance choreography and culminates in a public performance. Course may be repeated once for credit. Prerequisite: Dance 131/231 or instructor's permission.

1.5 Credits.

### Dance 332. Choreography & Composition. (EEC)

Focuses on the process of creating original dance compositions. Explores the elements necessary to dance composition, such as time, space, energy, form, design, and dynamics through improvisational exercises, the manipulation of movement, and the development of critical and analytical thinking. Students will write extensively throughout the course in the form of personal reflections, critical analysis of readings, and reviews of performances. Students will compose a solo piece of choreography, accompanied by a statement of purpose for their piece and a reflective essay on the process, which will be performed at the end of the term. Prerequisites: Two terms of Dan 131 and/or 231 or instructor's permission.

3 Credits.

### Dance 340. Pedagogy. (EEC)

The use of pedagogical principles for the conduct and organization of dance lessons in modern, jazz and ballet. This course covers instruction strategies, lesson planning, class management, motivation of students, class observations, and a teaching assignment. Prerequisite: permission from the instructor.

3 Credits.

### Dance 493. Senior Literature Review.

General guidance in continuing research and review literature related to the chosen topic for the senior essay. Support for crafting a sound and interesting argument, resulting in an outline of main points for the senior essay. Prerequisite: Interdisciplinary Studies 390.

2 Credits.

### Dance 298/398/498. Dance Internship. (EE)

Requirements variable. Proposals should be submitted to the Department Chair. Art internships are open to students in sophomore year or above who have completed at least two art, dance, or music courses.

Credits variable.

### Dance 495. Senior Essay.

Capstone experience for the Interdisciplinary Major. Writing of the senior essay based on the research and outline produced in Dance 493. Prerequisites: Dance 493 and Interdisciplinary Studies 494.

2 Credits.

### Dance 499. Senior Project.

Independent study toward a dance choreography project to be a companion to the Fine Arts Interdisciplinary Senior Essay. Limited to and required of fine arts interdisciplinary majors in a dance track. Prerequisite:

Dance 332.

Credit Variable.

## Earth Science

---

### Earth Science 110. Introduction to Physical Geology and Meteorology.

Introduction to mineralogy; igneous, sedimentary, and metamorphic petrology; rock cycle and structural geology. The evolution of continents Introduction to oceanography. The atmosphere and atmospheric motion, climate, and climatic zones. Earth as a part of the solar system. Prerequisite or co-requisite: Mathematics 101 (or placement out of Mathematics101).  
3 Credits.

### Earth Science 110 Lab. Introduction to Physical Geology and Meteorology Lab.

1 Credit.

### Earth Science 215. Geographical Information Systems.

Fundamentals of rapidly developing Geographical Information System (GIS) technology. The students learn applications for decision making, planning, and presentation of spatial data for many disciplines such as earth science, geography, health, ecology and history. Emphasis on data preparation, analysis and presentation. Includes lab exercises that illustrate the typical steps in a GIS project. ESRI's ArcView or QGIS, and Google Earth software will be used throughout the course. Prerequisites: Computer Science 105 or proficiency with Excel and permission of instructor. Lecture and laboratory exercises will be combined in each session.  
3 Credits.

## Economics

---

### Economics 131. Macroeconomics. (QR)

Study of the fundamentals of economic analysis with emphasis upon national output, employment, and price levels. Exploration of the monetary and financial system together with problems of economic stability. Special attention given to the role of government fiscal and monetary policy in managing the economy. Consideration of current issues such as economic growth, federal budget deficits, and the role of the Federal Reserve Bank. Course includes student-led seminars.  
3 Credits.

### Economics 132. Microeconomics. (QR)

Study of the fundamentals of economic analysis with particular emphasis upon consumer demand behavior and the output and pricing decisions of business firms under various market structures. Special attention given to the role of ethics in the behavior of business executives and consumers. Consideration of current issues such as health care, energy policy, and government intervention in the market. Course includes student-led seminars and group projects.  
3 Credits.

### Economics 231. Development Economics.

This course focuses on studying the process of economic growth and development in both developed and developing nations. Students will approach these economies by looking at empirical data, theoretical models of growth, emerging industries and their economic effects, the role of FDI, the effect of government and private capital and government trade policies.  
3 Credits.

### **Economics 232. Intermediate Microeconomics.**

An intermediate treatment of microeconomic thinking. Topics include consumer behavior, production, competition, externalities and the entrepreneurial function. This course will also explore the origins of economic theory.

3 Credits.

## **Education**

---

### **Education 128. Introduction to the Theory and Practice of Education. (PP)**

Aspects of a career in teaching are explored. Topics include: teaching as a profession, educational philosophies, and best practices in classroom instruction. Students are required to observe in either a preschool, elementary, or secondary school New Church classroom and participate in at least three field trips to other schools. Opportunities to develop presentation and storytelling skills.

3 Credits.

### **Education 201. Foundations of Education. (Worldviews)**

Study of world views and associated theories that impact education. Examination of questions such as: What is the nature of reality? How do we know what we know? How do we determine what is worth knowing? What is of value? Focus on how a New Church philosophy of education affects teachers and students.

3 Credits.

### **Education 202. Moral Education. (Moral)**

After exploring the origins of morality and how it is developed within the individual and society, this course focuses on how to best support moral, pro-social behavior in a school setting. Special attention will be given to the role of storytelling in moral education.

3 Credits.

### **Education 217. Language, Literacy, and Numeracy.**

This course prepares students for their role in the early childhood classroom. Many opportunities for application of best practices. Includes theories of language development. Special attention given to emergent language and language-rich environments. Includes 1 credit hour of ELL instruction.

3 Credits.

### **Education 218. Literacy Instruction for Young Learners I.**

Exposes students to theory and practice in literacy instruction, pre-kindergarten through grade 4. Emphasis on emergent literacy, techniques and skills of teaching reading and language arts, evaluation and assessment. Includes 1 credit hour of ELL. Prerequisite: Education 128 or Education 217.

3 Credits.

### **Education 219. Literacy for Young Learners II.**

This course prepares pre-service teachers for teaching language arts in early childhood (pre-K to 4th grade). How to assess the work of young writers and design instruction to advance their skills. Best practices for teaching handwriting, spelling, decoding, vocabulary, comprehension, and fluency.

3 Credits.

### Education 271. Introduction to Early Childhood Education.

Develop basic knowledge, skills and dispositions in preparing students to teach in early childhood classrooms. Teaching young children from a background of New Church spiritual philosophy, major theories and cultural perspectives. Emphasis on DAP (developmentally appropriate practice); integration of learning goals with children's play; diversity in the classroom; and the process of building a collaborative model with family and community.

3 Credits.

### Education 272. Child Development: Birth - Nine Year Olds.

Teachings about human development from the theology of Swedenborg are compared with major theories of child development. Emphasis on the sensory needs of early childhood and how to create a nurturing environment for physical, mental, and socio-emotional health.

3 Credits.

### Education 274. Adolescent Growth and Development: Ages 8-18.

This course explores the physical, intellectual, emotional, and social development of children as they transition through middle childhood into adolescence. Emphasis on how development occurs in diverse contexts (home, school, and community); developmental theories and research that inform practice; and biological and neurological changes happening in the teenage brain. Prerequisite: Education 128 or Psychology 101.

3 Credits.

### Education 322. Social Studies and the Young Child.

Emphasis on the skills and attitudes taught within social studies and developed in early childhood programs. Special attention to state standards as well as New Church competencies through the study of units, multicultural experiences, and the methods and materials for teaching social studies. Open only to third year students. Prerequisites: Education 128 or 271.

3 Credits.

### Education 323. Math and the Young Child.

Exploration of the content and methods of teaching mathematics Pre-K to 4th grade. Emphasis on a problem-solving approach to the teaching of math within the context of a developmentally appropriate curriculum. Students learn how to engage children in the subject through imaginative, musical, rhythmic, athletic, and artistic activities. This course is about how to teach math so it makes sense.

3 Credits.

### Education 324. Science and the Young Child.

Students explore a variety of activities suitable for young children in the context of a garden-based curriculum and examine theories of cognitive development as they relate to the teaching of science. Emphasis on the nature of science, how young children perceive and conceptualize the world around them, and an inquiry approach to teaching science.

3 Credits.

### Education 333. Seminar on Art and Creative Expression.

Concepts related to creativity in the arts and the many media areas used by children to express themselves are introduced. Topics include: concepts of creativity; facilitation of children's creative expression; appreciation of children's art processes and products. Particular attention to musical expression. Prerequisites: Education 128 or 271.

1.5 Credits.

### Education/Psychology 340. Educational Psychology.

Study of secular psychology as it is applied to children and adolescents in the classroom setting. Major areas of study include classroom management, learning, and motivation. Swedenborgian doctrines include innocence, charity, development of the rational mind, and conscience. Prerequisite: Psychology 101 or Education 128.

3 Credits.

### Education 402. Student Teaching. (EE)

Includes at least 12 weeks of combined observation and teaching in an early childhood education classroom setting, supervised by a teacher from Bryn Athyn College Education Department and by a classroom teacher in the cooperating school. Open only to seniors in the education major.

3-12 Credits.

### Education 298, 398, 498. Education Internship. (EE)

Proposals must be approved by the Department Chair. Course may be repeated for credit. Credit variable.

### Field Experience I: Observation.

Students will be assigned to a classroom for guided observation experience that relates to course work during the third year. Open to non-majors with permission from education department chair.

2.5 Credits.

### Field Experience II: Exploration.

Students work under a classroom teacher's supervision tutoring children, facilitating small group conversations, supervising outdoor play, and monitoring classroom routines and procedures. FE II is taken in conjunction with all winter term courses of the third year and provides students with 120 hours of observation and practice teaching. FE II occurs every Tuesday and Thursday of the term. Not open to non-majors; third-year students only.

3 Credits.

### Field Experience III: Pre-student Teaching.

A continuation of FE II, FE III gives students more independent practice in working with whole class instruction and integrating special needs and ELL students in their assigned classroom. Provides 120 hours of practice teaching hours. Not open to non-majors; third-year students only.

3 Credits.

### Field Experience: Special Education.

This pre-student teaching course provides students the opportunity to observe in a special education setting and apply the knowledge and skills that they have learned in their coursework. Students will gain hands-on experiences with exceptional children, experience the different types and levels of service delivery, and reflect on how, when, and why specific evidence-based practices are implemented. Student will start in the "Observation" phase and gradually take on increased responsibilities throughout the term. Prerequisites: Special Education 111 and permission of the instructor. Not open to non-majors; third- or fourth-year students only.

3 Credits.

### Field Experience IV. Observation in Upper Grade Levels

For students intending to teach in the General Church school system. Students gain experience working with upper grade level students. Taken only with permission of the education department chair. Co-requisite: Psychology 204.

3 Credits.

### Special Education 111. Introduction to Special Education.

An overview of key concepts, theories and practices of special education. Course begins with a role-playing game in which students learn about the milestone legislation, IDEA. Attention is given to the social and historical underpinnings of today's special education programming, as well as to the various types of learning needs in any given classroom. Students will learn to view "disabilities" from differing perspectives and gain appreciation for the variety of needs expressed in the human condition. 3 Credits.

### Special Education 212. Supporting Students with Disabilities.

This course examines the characteristics and needs of students who are identified under the 13 federally defined categories of disabilities. Emphasis is on investigating the complexity of these needs and the specially designed instruction that meets them. Research-based frameworks such as UDL, as well as inclusionary practices within the life of the classroom will be addressed. Prerequisite: Special Education 111.

3 Credits.

### Special Education 213. Family and Community Partnerships.

This course examines the importance of collaboration when serving students with various needs. Addresses the skills needed by teachers and interdisciplinary team members. Strategies for collaborating with families, community agencies, educational staff, and other stakeholders will be explored. Students will develop skills for building effective teams, improving communication, problem-solving, advocating and decision-making. Prerequisite: Special Ed 111.

3 Credits.

### Special Education 312. Classroom Assessments.

This course addresses the competencies and skills needed to accommodate and adapt instruction for all students, including those with disabilities and various learning needs, in an inclusive setting. How to effectively use various assessment and evaluative tools in the classroom, in order to meet the learning needs and goals. Learn to identify, administer, interpret and plan instruction based on the assessment of student learning, as well as consider problem solving, and classroom management as part of this process. Prerequisite: Special Education 111 and permission of the education department chair.

3 Credits.

### Special Education 313. Research-based Interventions.

This course examines models of effective specialized instruction in a variety of content areas, with a focus on literacy. Emphasis on using assessment data to inform and guide effective instruction and intervention. Exploration of multi-sensory methods and programs for addressing the needs of students with disabilities within the general education curriculum. Taken in conjunction with FE III. 3 Credits. Prerequisite: Special Education 111 and permission of the education department chair.

3 Credits.

### Special Education 331. Classroom Management and Behavioral Support.

Examination of what it means to lead and manage a differentiated classroom. Addresses classroom management skills of fostering a positive learning environment; planning and delivering assessment-driven instruction; implementing Positive Behavior Intervention and Support (PBIS); and conducting a Functional Behavioral Analysis (FBA).

3 Credits.

### Special Education 334. Assistive Technology in the Classroom.

This course explores a variety of technologies used to assist persons with a wide range of exceptionalities. Universal Design for Learning is at the core of this course with a goal of adapting technology, instruction, and assessment to meet a range of student needs. Prerequisites: Special Education 111 and permission of the education department chair.

1 Credit.

## English

---

Literature courses in this discipline fill the aesthetic requirement of the Core Program. 200-level English courses require Writing 101 as prerequisite. 300-level and higher require 200-level English.

### English 105. Our Own Voices: Discovering Diversity in Contemporary Fiction (Introductory Literature Seminar).

An introduction to contemporary literature that explores, studies, and celebrates diversity in both content and authorship.

3 credits.

### English 215. Great Books I. Classical Literature.

Study (in English) of selected texts from the Greeks and Romans, including works by such authors as Homer, Hesiod, the Greek dramatists, Virgil, and Ovid. Emphasis given to the themes of Classical mythology.

Prerequisite: Writing 101.

3 Credits.

### English 216. Great Books II. Renaissance and Neoclassical Literature of Western Culture.

Study (in English) of selected texts from the Renaissance and the Enlightenment, including works by Cervantes, Shakespeare, Moliere, Milton, Voltaire, Goethe, and others. Lecture/discussion. Prerequisite: Writing 101.

3 Credits.

### English 217. Great Books III. 19<sup>th</sup> and 20<sup>th</sup> Centuries.

Study (in English) of selected 19<sup>th</sup>- and 20<sup>th</sup>-Century texts, including works by such authors as Shelley, Forster, Flaubert, Henry James, Dostoevsky, and Tolstoy. Prerequisite: Writing 101.

3 Credits.

### English 218. American Literature I.

Chronological survey of American writers from colonial times to the late 19<sup>th</sup> century. Particular attention paid to themes such as nature, religion, freedom (or lack thereof), and the shaping of “American” values and identities. Authors include Hawthorne, Poe, Dickinson, Melville, Emerson, Thoreau, and Whitman, among others. Prerequisite: Writing 101.

3 Credits.

### English 219. American Literature II.

Chronological survey of late 19<sup>th</sup>-Century and early 20<sup>th</sup>-Century American authors from Twain and the rise of Realism to Willa Cather, Edith Wharton, and Henry James. Prerequisite: Writing 101.  
3 Credits.

### English 220. English Literature Survey I.

Chronological overview of the development of English literature in England from the early medieval period through the mid-17<sup>th</sup> century. Lecture and discussion on such authors as Chaucer, Shakespeare, Marlowe, Donne, Jonson, and more. Prerequisite: Writing 101.  
3 Credits.

### English 221. English Literature Survey II.

Chronological overview of the development of English literature in England from the late 17<sup>th</sup> century through the early 20<sup>th</sup> century. Lecture, discussion, guest speakers, student reports or projects, research paper on a chosen period or author. Continuation of English 220; English 220 not prerequisite. Prerequisite: Writing 101.  
3 Credits.

### English 235. Shakespeare. (W)

In-depth study of selected Shakespearean tragedies, comedies, histories, and sonnets. Lectures and collateral readings with background of the Elizabethan world. Prerequisite: Writing 101.  
3 Credits.

### English 245. Children's Literature.

Study of the textual characteristics of children's literature and the role this literature has played historically. Picture books, readers, stories, and adventure novels. May include authors such as Caxton, Grimm, MacDonald, Milne, and New Church writers. Written work includes projects and a children's story reflecting the trends studied. Prerequisite: Writing 101.  
3 Credits.

### English 255. Post-Apocalyptic Fiction. (W)

Detailed study of modern depictions in literature of the end-of-days and the trending post-apocalyptic genre. Students evaluate texts under the literary constructs of plot and subplot, device, character, setting and author intent; enhance their understanding of the works through lenses of current events and social, political, and historical context; examine and discuss other mediums of the theme (television and film), including relevant analysis of other works in the genre, such as its Young Adult counterparts (*Hunger Games*, *Maze Runner*, *Divergent*, *Pure Trilogy*, etc); and experiment with their own perceptions of the apocalypse via a creative project. Prerequisite: Writing 101.  
3 Credits.

### English 320. The English Language.

Study of the historical development of the language from Anglo-Saxon to Modern English, with focus on the culture and events that have shaped the language, and ways in which English has shaped cultures. Prerequisite: Any 200-level English course.  
3 Credits.

### English 360. Victorian Literature. (II)

Study of selected literary figures of England from 1830 to 1900, with emphasis on trends in religion, philosophy, and science, and on the literary form of the novel. Prerequisite: Any 200-level English course.  
3 Credits.

### English 365. Topics in Literature.

In depth examination of a selected literary theme, movement, genre, or author. Specific title announced in the course bulletin when offered. Topics will make use of a professor's area of expertise and research. May be repeated for credit when different topics are offered. Prerequisite: Any 200-level English course.  
3 credits.

### English 367. The Modern Novel. (IL)

Study of selected early 20<sup>th</sup>-century novels. Emphasis on how these works reshape 19<sup>th</sup>-century forms and subjects to reflect changes (demographic, political, social) in the modern world. Includes such writers as James, Woolf, Faulkner, Hurston, and Hemingway. Prerequisites: Writing 202 and any 200-level English course.

3 Credits.

### English 370. Literature of the Past 4 Decades. (W)

Focus on American novels, with selected shorts stories and poems. Overarching theme of memory, consciousness, and the literary aftermath of social trauma (Slavery, WWII, Vietnam, 911). Prerequisite: Any 200-level English course.

3 Credits.

### English 490. English Major Writing Project.

Writing project for the writing track of the English major. Independent work in criticism, fiction, or poetry, guided by an advisor. Involves student over a two-term period of the senior year.

3 Credits.

### English 491. English Major Writing Project.

Completion of the senior writing project.

3 Credits.

### English 495. Senior Seminar: Career Preparation.

Focus on professional transition to workplace or graduate school. Guest speakers and faculty present recent trends in English studies and in employment for English majors. Students propose (or present if completed) their capstone work as well as give evidence of facility in the software and technology skills required of BAC English graduates. Students network with alumni at a distance or in town to support an outreach effort requiring communication skills and fostering any aspect of the mission's focus on intellectual, moral, civil, and spiritual development.

1 Credit.

### English 499. English Major Capstone Project

Writing project for the language and literature track of the English major. Supplemental to a 300-level English course, this credit involves extended independent research and writing beyond the scope of the course.

1 Credit.

### English 298, 398, 498. English Internship. (EE)

Proposals must be approved by the head of major. Prerequisites: 2 courses in English above the 100-level. Course may be repeated for credit.

Credit variable.

## Experiential Education

---

### First Year Seminar 101.

This seminar is an interactive class promoting engagement in the curricular and co-curricular life of the college. It serves to position students for success at Bryn Athyn College through advancing academic preparedness and social integration. Students who complete this course successfully will be able to make informed and appropriate academic plans and social choices. All fall term first year students are required to take this course.

1 Credit.

### Experiential Education 198/298. Internship. (EE)

The internship course is open to students with a 2.5 GPA or above. It is a supervised, pre-professional experience with clear links to a student's academic program. It is conducted primarily or totally outside a regular course classroom, and for which a student earns academic credit. It is organized primarily around an assignment in a work-place situation in which students working under the direction of a supervisor learn hands-on professional skills.

The internship course requires a learning plan, reflective component, and an analytical component (e.g., essay, paper, or presentation). Individual learning plans are retained in the office of Internship. This course satisfies the EE requirement.

Course may be repeated for academic credit by arrangement.

Credit variable.

### Service Projects 1xx. (EE)

Students who participate in a Bryn Athyn College approved service project may apply to receive an EE credit waiver to the director of Experiential Education.

### Leadership 130. Introduction to Leadership. (EE)

This course engages students in the basic tools necessary to become a successful leader. Students design a leadership project and review leadership theories. Students analyze leadership characteristics and target an area for their own strengthening. Students set measurable goals that stretch their capabilities through leadership challenges and homework assignments.

3 Credits.

## Fine Arts

---

\*Course has a laboratory fee for materials used

\*\*Students may not take both levels of any dual-level art history course for credit, but they may take both levels of studio courses.

### Fine Arts 101/201. Aegean to Early Christian. (II)

Introductory survey of art and architecture covering Aegean, Greek, Etruscan, Roman, Early Christian, and Byzantine art. Study of works from Glencairn's collection. Trip to the Metropolitan Museum of Art in New York.

3 Credits.

### Fine Arts 102. Renaissance and Baroque Art. (II)

Introductory survey of architecture, sculpture, and painting covering Renaissance, Reformation, and Counter-Reformation art. Includes artists such as Vermeer, Rembrandt, Michelangelo, da Vinci, Bernini, Caravaggio, and others. Trip to Metropolitan Museum of Art in New York.

3 Credits.

### Fine Arts 112/212. Medieval Art and Its Revivals.\*\*

Using one of the finest collections of medieval art in the world (Glencairn Museum), this course surveys the art of Medieval Europe, particularly that of France, focusing on the evolution of sacred imagery, and how it reflects and shapes the attitudes of the period. It also covers medieval revivals in 19<sup>th</sup>-century England and 19<sup>th</sup>-20<sup>th</sup> century America. Highlights include: Early Christian sculpture, Celtic manuscripts, Romanesque sculpture, Gothic cathedrals, and Gothic revivals including aspects of the Arts and Crafts movement. Students solve problems posed by some of Glencairn's pieces and develop a research topic.

3 Credits.

### \*Fine Arts 120. Metal Work I.\*\*

Introduction to basic metalworking techniques in copper, brass, and silver including sawing, piercing, embossing, form folding, cold joining, soldering, and setting cabochon stones. Inspired by the magnificent examples in Glencairn.

3 Credits.

### Fine Arts 122. Metal Forging.

Introduction to artistic ironwork concentrating on hand-forged, wrought iron using traditional techniques. Inspired by the magnificent examples in Glencairn and Bryn Athyn Cathedral.

3 Credits.

### Fine Arts 123. Forging Workshop

A four-day intensive summer workshop. Instruction in basic forging techniques and introduction to the metal work in Glencairn Museum and Bryn Athyn Cathedral.

1 Credit.

### \*Fine Arts 125. Photography.

Introduction to the use of various cameras, darkroom techniques, alternative processing, and basic design.

3 Credits.

### Fine Arts 126. Stone Carving Workshop

A five-day intensive summer workshop. Instruction in basic stone carving techniques and introduction to the stonework in Glencairn Museum and Bryn Athyn Cathedral.

1 Credit.

### Fine Arts 128. Stained Glass Painting.

Introduction to traditional and innovative techniques in glass painting. Inspired by the magnificent examples in Glencairn and Bryn Athyn Cathedral.

3 Credits.

### Fine Arts 129. Stained Glass Painting Workshop.

A four-day intensive summer workshop. Instruction in glass painting techniques and introduction to the stained glass in Glencairn Museum and Bryn Athyn Cathedral.

1 Credit.

**\*Fine Arts 130. Ceramics.**

Introduction to clay work including hand building, wheel throwing, slip casting, glazing, and firing processes. Also form function and representation.

3 Credits.

**\*Fine Arts 140. Drawing and Painting.**

Introduction to basic techniques in drawing and painting. Oil painting project. Discussion of the development of the history of painting.

3 Credits.

**Fine Arts 141. Building Arts Foundation.**

Introduction to the Building Arts curriculum by focusing on fundamental design and drawing principles essential to all craft disciplines. Students learn to communicate ideas, design and execute projects through sketches, hand drawings and computer-generated drawings.

3 Credits.

**Fine Arts 151. Architectural Modeling.**

This course provides opportunities for students to develop their visualization skills in architectural design by requiring them to make three-dimensional models of two-dimensional drawings. Students will be presented with a variety of architectural modeling scenarios and will be required to develop three-dimensional models using various materials such as paper, clay, and wood. Students work independently and in groups to complete design scenarios presented to them. Emphasis is placed on communication, accuracy, and craftsmanship in architectural modeling. The collection and models in the Glencairn Museum support these endeavors.

3 Credits.

**Fine Arts/History 160. Art, Culture and History.**

Examination of the art, culture, and history of a designated period and region. Special attention will be given to art as a form of religious and cultural expression. Serves as an intellectual foundation for Fine Arts/History 161: Study Abroad. Offered in conjunction with Glencairn Museum.

3 Credits.

**Fine Arts/History 161. Art, Culture, and History: Study Abroad.**

Participation in an academic study abroad trip (2-3 weeks) focused on the period and region studied in Fine Art/History 160. Students are required to present research completed in Fine Arts/History 160 on site.

Offered in conjunction with Glencairn Museum. Prerequisite: Fine Arts/History 160 in preceding term.

Pass/Fail.

1 Credit.

**Fine Arts 202. Renaissance and Baroque Art. (II)**

Introductory survey of the architecture, sculpture, and painting covering Renaissance, Reformation, and Counter-Reformation Art. Includes artists such as Vermeer, Rembrandt, Michelangelo, da Vinci, Bernini, Caravaggio, and others. Trip to Metropolitan Museum of Art in New York.

3 Credits.

### Fine Arts 205. Introduction to American Architectural History.

An overview of architectural developments in the United States within the larger context of American ideals and historic events. Covers the progression of style and form. Introduces students to architectural concepts and terms. Special attention given to artists influenced by Swedenborg including Daniel Burnham, William Strickland, Harold T. Carswell, A. Page Brown, Theophilus Parsons Chandler, and Langford H. Warren. Students research and present a topic of their choice.

3 Credits.

### Fine Arts 210. Nineteenth and Twentieth Centuries. (II)

Examination of the architecture, sculpture, and painting of the late eighteenth, nineteenth, and twentieth centuries in Europe, England, and America. Special attention given to artists influenced by Swedenborg, including Flaxman, Blake, Powers, Page, Gauguin, Inness, Pyle, and Burnham.

3 Credits.

### Fine Arts 213/313. Topics in Twentieth-Century Architecture: Bryn Athyn's National Historic Landmarks.

Study of the conception of Bryn Athyn Cathedral, Glencairn, Cairnwood, and Cairncrest within the context of architectural developments at the turn of the twentieth century. The course uses resources in the Cathedral, John Pitcairn Archives, Glencairn, and the Raymond and Mildred Pitcairn archives, from which the students do original research on a topic of their choice.

3 Credits.

### Fine Arts 220. Metal Work II.

Continuation of FA 120 introducing new techniques in copper, silver, gold foil, cloisonné, and the setting of faceted stones. Inspired by the magnificent examples at Glencairn. Prerequisite: Fine Arts 120.

3 Credits.

### Fine Arts 221. Building Arts Foundation II.

This course builds upon skills acquired in FA 121 Building Arts Foundation I and provides opportunities to practice design principles while further developing the hand skills essential to all craft disciplines. Students are presented with visual problems to solve that relate to various lecture topics. Students use preparatory drawings and models to communicate ideas then execute projects in a variety of materials. Students work independently and in groups to solve design challenges. Emphasis is placed on teamwork, accuracy, and craftsmanship. The collections and models in the Glencairn Museum support these endeavors.

3 Credits.

### Fine Arts 222. Intermediate Metal Forging.

Focusing on architectural ironwork design and construction, this course refines the skills learned in FA 122. Includes opportunities for self-expression and creative thinking. Inspired by the magnificent examples in Glencairn and Bryn Athyn Cathedral. Prerequisite: FA 122.

3 Credits.

### Fine Arts 228. Intermediate Stained Glass Painting

Focusing on architectural stained glass design and construction, this course refines the skills learned in FA 128. Includes opportunities for self-expression and creative thinking, repair and restoration of historic glass. Inspired by the magnificent examples in Glencairn and Bryn Athyn Cathedral. Prerequisite: FA 128.

3 Credits.

**\*Fine Arts 230. Intermediate Ceramics.**

Further development of individual skills and sensitivities in the medium of clay. Prerequisite: Fine Arts 130.  
3 Credits.

**Fine Arts 232. Computer Assisted Design.**

An introduction to two-dimensional computer aided drawing using AutoCAD and three-dimensional drawing using SketchUp. The course covers basic commands, file maintenance, creation of 2D drawings, isometric views and plotting. Student acquire the skills necessary to draw basic mechanical parts and architectural diagrams.  
3 Credits.

**\*Fine Arts 240. Intermediate Painting.**

Introduction of more materials and techniques as well as more advanced use of concepts learned in Fine Arts 140. Prerequisite: Fine Arts 140.  
3 Credits.

**Fine Arts 241. Building Arts Foundation II.**

This course builds upon skills acquired in FA 221 Building Arts Foundation I and provides opportunities to practice design principles while further developing the hand skills essential to all craft disciplines. Students are presented with visual problems to solve that relate to various lecture topics. Students use preparatory drawings and models to communicate ideas then execute projects in a variety of materials. Students work independently and in groups to solve design challenges. Emphasis is placed on teamwork, accuracy, and craftsmanship. The collections and models in the Glencairn Museum support these endeavors.  
3 Credits.

**Fine Arts 251. Integrating Art into a Child's Early Years.**

By reading about the developmental states of children, discussing the issues involved with elementary art education, looking at examples of children's art, and actually doing projects, future teachers and caregivers will become confident in their ability to use art as one of their teaching methods.  
1.5 Credits.

**Fine Arts/History 260. Art, Culture and History.**

Examination of the art, culture, and history of a designated period and region. Special attention will be given to art as a form of religious and cultural expression. Serves as an intellectual foundation for Fine Arts/History 261: Study Abroad. Offered in conjunction with Glencairn Museum.  
3 Credits.

**Fine Arts/History 261. Art, Culture, and History: Study Abroad.**

Participation in an academic study abroad trip (2-3 weeks) focused on the period and region studied in Fine Art/History 260. Students are required to present research completed in Fine Arts/History 260 on site. Offered in conjunction with Glencairn Museum. Prerequisite: Fine Arts/History 260 in preceding term.  
Pass/Fail.  
1 Credit.

### Fine Arts/History 271. Introduction to Historic Preservation.

This course will introduce students to the basic theory and practice of historic preservation. Major topics include preservation terminology and concepts, architectural styles, and the history of the preservation movement in the United States, including advocacy, government's role in historic preservation, and emerging/contemporary issues in historic preservation. The Bryn Athyn Historic District and other historic structures in the local community will be used extensively as illustrations for topics throughout the course. This is not a methods and materials conservation course. Material is presented through lectures, guest lectures, class discussion and field trips.

3 Credits.

### Fine Arts/History 308. The Art and Culture of Ancient Egypt.

Examination of ancient Egyptian culture as revealed through art and archaeology. Special attention given to art as a source of historical information. Topics include the influence of natural resources and the environment, principles of artistic representation, problems with interpreting evidence, the origin and nature of Egyptian hieroglyphic writing, and the Egyptian world view. Trip to the University of Pennsylvania Museum of Archaeology and Anthropology in Philadelphia.

3 Credits.

### Fine Arts 310. Nineteenth and Twentieth-Century Art. (II)

Examination of the architecture, sculpture, and painting of the late eighteenth, nineteenth, and twentieth centuries in Europe, England and America. Special attention given to artists influenced by Swedenborg, including Flaxman, Blake, Powers, Page, Gauguin, Inness, Pyle, and Burnham. Prerequisite: Any II art history course, preferably 200 level.

3 Credits.

### Fine Arts 313. Topics in Twentieth-Century Architecture: Bryn Athyn's National Historic Landmarks.

Study of the conception of Bryn Athyn Cathedral, Glencairn, Cairnwood, and Cairncrest within the context of architectural developments at the turn of the twentieth century. The course uses resources in the Cathedral, John Pitcairn Archives, Glencairn, and the Raymond and Mildred Pitcairn archives, from which the students do original research on a topic of their choice.

3 Credits.

### Fine Arts 493. Senior Literature Review.

General guidance in continuing research and review literature related to the chosen topic for the senior essay. Support for crafting a sound and interesting argument, resulting in an outline of main points for the senior essay. Prerequisite: Interdisciplinary Studies 390.

2 Credits.

### \*\*Fine Arts 298/398/498. Fine Art Internship. (EE)

Requirements variable. Proposals should be submitted to the Department Chair. Art internships are open to students in sophomore year or above who have completed at least two art, dance, or music courses. Credits variable.

### Fine Arts 495. Senior Essay.

Capstone experience for the Interdisciplinary Major. Writing of the senior essay based on the research and outline produced in Fine Arts 493. Prerequisites: Fine Arts 493 and Interdisciplinary Studies 494.

2 Credits.

### **Fine Arts 499. Senior Project.**

Independent study toward a studio arts project to be a companion to the Fine Arts Interdisciplinary Senior Essay. Limited to and required of fine arts interdisciplinary majors in a studio art track. Prerequisite: Fine Arts 399.

Credit Variable.

## **French**

---

### **French 101. Introductory French I.**

Introduction to the French language for students without previous experience. Emphasis is placed on communication and foundations of French grammar. French is the language of instruction.

3 Credits.

### **French 102. Introductory French II.**

Continuing introduction to the French language. Prerequisite: French 101 or equivalent as determined by placement test. French is the language of instruction.

3 Credits.

## **Geography**

---

### **Geography 110. World Regional Geography.**

Study of world regions with emphasis on the geographic relationships—physical and cultural—that give them their character. Emphasizes the political and cultural formations of human societies. Focus on familiarity with map locations.

3 Credits.

## **German**

---

### **German 101. Introductory German I.**

Introduction to the German language for students without previous experience.

Emphasis is placed on communication and the foundations of German grammar. German is the language of instruction.

3 Credits.

### **German 102. Introductory German II.**

Continuing introduction to the German language. Prerequisite: German 101 or equivalent as determined by placement test. German is the language of instruction.

3 Credits.

## **Greek**

---

### **Greek 110. Beginning New Testament Greek I.**

Introduction to the language of the New Testament. A study of the basic forms and syntax of Greek grammar.

3 Credits.

### Greek 111. Beginning New Testament Greek II.

Continuation of Greek 110. Prerequisite: Greek 110.  
3 Credits.

### Greek 250. Readings in New Testament I.

Readings in the Gospel of John and the Book of Revelation. Prerequisite: Greek 111.  
3 Credits.

### Greek 251. Readings in New Testament II.

Readings in the synoptic gospels (Matthew, Mark and Luke). Prerequisite: Greek 111.  
3 Credits.

## Hebrew

---

### Hebrew 110. Beginning Hebrew I.

Introduction to the language of the Old Testament. A study of the basic forms and syntax of Hebrew grammar.  
3 Credits.

### Hebrew 111. Beginning Hebrew II.

Continuation of Hebrew 110, with graduated readings adapted from Genesis, Exodus, Deuteronomy, Joshua, Judges, and other books of the Old Testament. Prerequisite: Hebrew 110 or equivalent as determined by placement test.  
3 Credits.

### Hebrew 250. Intermediate Hebrew.

Review of Hebrew grammar, followed by readings in the Old Testament with special attention to forms and syntax. Prerequisite: Hebrew 111.  
3 Credits.

## History

---

### History 112. The Viking World.

Study of the Viking Age, c. 750-1050 CE. This course examines the impact of Viking expansion in Europe as raiders, traders, conquerors, and settlers. Using written as well as archaeological sources, attention is paid not only to the chronology of events but also to the consideration of Norse values and beliefs, cultural practices and societal structures. Students participate in Glencairn Museum's Medieval Festival.  
3 Credits.

### History 114. The Classical World. (II)

Historical survey of ancient Greece and Rome from Mycenaean civilization to the fall of the Roman Empire in the west. Particular attention to cultural values, political trends, and the role of religion in Greek and Roman societies. Examination of textual and archaeological evidence. Guided development of a research paper.  
3 Credits.

### History 117. The Contemporary World.

Examination of the post-World War II era and its effect on societies around the globe. Includes survey of political and economic developments in the different regions of the world and thematic approach to the contemporary global situation. Current events discussions.

3 Credits.

### Fine Arts/History 160. Art, Culture and History.

Examination of the art, culture, and history of a designated period and region. Special attention will be given to art as a form of religious and cultural expression. Serves as an intellectual foundation for Fine Arts/History 161: Study Abroad. Offered in conjunction with Glencairn Museum.

3 Credits.

### Fine Arts/History 161. Art, Culture, and History: Study Abroad.

Participation in an academic study abroad trip (2-3 weeks) focused on the period and region studied in Fine Art/History 160. Students are required to present research completed in Fine Arts/History 160 on site.

Offered in conjunction with Glencairn Museum. Prerequisite: Fine Arts/History 160 in preceding term.

Pass/Fail.

1 Credit.

### History 207. Ancient Mesopotamia.

Examination of the history and society of ancient Mesopotamia (modern Iraq and the surrounding region) from the Neolithic period through the Persian Empire. Particular focus on Mesopotamian archaeology and texts as historical sources. Use of Glencairn Museum's Near Eastern collection.

3 Credits.

### Anthropology/History 211. Artifacts, Archaeology, and Museums. (W)

Introduction to the theories and methods used to interpret how objects provide evidence for history and express a society's values, ideas, and attitudes. Includes examination of archaeological method and ethics, and the use of objects in a museum setting. Use of hands-on projects and visits to Bryn Athyn's historic district and other local sites.

3 Credits.

### History 213. Conversion and Christianity in the Medieval North.

Examination of the conversion of medieval Northern Europe from Norse paganism to Christianity (c. 800 – 1300 CE) as understood in three periods: Pre-Christian, Conversion, and Christian. Consideration of multiple aspects pertaining to shifts in worldviews, values, and religious beliefs. Students analyze and interpret assigned primary sources.

3 Credits.

### History 215. Renaissance and Reformation.

Examination of the intellectual, religious, political, and cultural developments in European society from the fourteenth through the early eighteenth century, with special focus on the contributions of the Renaissance and Reformation to western civilization. Topics include the emergence and spread of Renaissance culture, the Renaissance state, the Protestant Reformation, and the wars of religion. Use of primary texts as historical sources.

3 Credits.

### History 216. The Making of Modern Europe, 1715-1918.

Study of political, social, economic, and cultural developments in the major European powers from the eighteenth century through World War I. Topics include the Industrial Revolution, the French Revolution, Romanticism, Nationalism, Modern Mass Society, Imperialism, and World War I. Lectures and class presentations.

3 Credits.

### History 217. Nazi Germany.

Examination of the rise and fall of Nazi Germany under Adolf Hitler and a consideration of contributing historical, social, economic, and political factors. Particular focus on the impact on German society, individual choice, and philosophies underpinning Nazism: fascism, cult of personality, eugenics, anti-Semitism, social Darwinism.

3 Credits.

### History 225. Religion and Society in Colonial America 1607-1763.

Thematic exploration of the British colonies in North America with an emphasis on the role of religion in the establishment, structure, and development of key colonial societies. Consideration will be given to how and why Virginia, Puritan New England, and Quaker Pennsylvania, for example, differed from one another and yet contributed to a unified American identity by the middle of the 18<sup>th</sup> century.

3 Credits.

### History 230. United States History 1763-1865.

Examination of the historical development of American society from the eve of the American Revolution through the Civil War. Particular focus on political ideology, national identity, and societal values with special attention given to the events leading up to the Revolution, the political ideologies of the founding fathers, and the causes of the Civil War.

3 Credits.

### History 240. Ancient Israel.

Study of the ancient Israelites from the time of their formation as a social group through the destruction of the temple in Jerusalem by the Romans. Emphasis on government, religion, intercultural relationships between Israel and its neighbors, and the context of the Old Testament.

3 Credits.

### History 245. The Middle East.

Surveys political, social, and cultural developments in the societies of the greater Middle East. Focus on the waxing and waning of selected Islamic Empires.

3 Credits.

### History 248. The Medieval World.

Historical survey of medieval Europe from the fall of Rome through the fourteenth century. Particular focus on religion and the role of the church throughout the middle ages. Use of primary texts and Glencairn Museum's collections.

3 Credits.

### History 257. Women in Classical Antiquity.

Examination of the social roles and experiences of women in ancient Greece and Rome using archaeological and textual evidence. Topics include stages of life, women's occupations, women's experiences in the household, religion, and public settings, women and the law, and women and medicine. Particular consideration of the challenges presented by the ancient evidence and of the distinction between ideological views and actual lived experiences.

3 Credits.

### Fine Arts/History 260. Art, Culture and History.

Examination of the art, culture, and history of a designated period and region. Special attention will be given to art as a form of religious and cultural expression. Serves as an intellectual foundation for Fine Arts/History 261: Study Abroad. Offered in conjunction with Glencairn Museum.

3 Credits.

### Fine Arts/History 261. Art, Culture, and History: Study Abroad.

Participation in an academic study abroad trip (2-3 weeks) focused on the period and region studied in Fine Art/History 260. Students are required to present research completed in Fine Arts/History 260 on site.

Offered in conjunction with Glencairn Museum. Prerequisite: Fine Arts/History 260 in preceding term.

Pass/Fail.

1 Credit.

### History 270. Archives Theory.

Examination of the theory and practice behind the operation of archives and their role in society. Survey of fundamentals including archival history, controlled vocabularies, preservation, and access.

3 Credits.

### Fine Arts/History 271. Introduction to Historic Preservation.

This course will introduce students to the basic theory and practice of historic preservation. Major topics include preservation terminology and concepts, architectural styles, and the history of the preservation movement in the United States, including advocacy, government's role in historic preservation, and emerging/contemporary issues in historic preservation. The Bryn Athyn Historic District and other historic structures in the local community will be used extensively as illustrations for topics throughout the course.

This is not a methods and materials conservation course. Material is presented through lectures, guest lectures, class discussion and field trips.

3 Credits.

### History 276. Barbarians and the Fall of Rome.

Examination of the era that led to the misleading phrase: "the fall of Rome." This course investigates Rome's interaction with various barbarian groups (e.g. Visigoths, Ostrogoths, Vandals, Burgundians, Langobards, Franks, and Huns) and its evolving strategy in dealing with them. Considers the replacement of the western Roman empire by various successor states, the barbarian kingdoms, which eventually coalesced into early medieval Europe.

3 Credits.

### History/Sociology 290. Social and Religious Movements.

Exploration of selected social and religious movements. The history of these movements will be used to understand the sociological factors that contributed to their development, form, and impact.

3 Credits.

### History 305. Topics in History. Asia.

Students take part in two historical role-playing games informed by classic texts: the Ming Dynasty succession crisis in 1587 China and the decisions surrounding Indian independence from the British Empire in 1948. Focus on developing skills—speaking, writing, critical thinking, problem solving, leadership, and teamwork—in order to prevail in elaborate and complicated simulations. Open to second-year students and above.  
3 Credits.

### History 310. Religion in Ancient Greece and Rome.

Investigates the nature of Greek and Roman religious practices and beliefs through a close study of primary texts and archaeological evidence. Examines the role of religion in Greek and Roman society. Introduction to various methodological approaches to the study of ancient religions. Consideration of the development of early Christianity and Judaism. Topics include sacrifice, gods and heroes, festivals, myth, oracles and divination, temples, and mystery cults. Prerequisite: History 114 or Religion 283 or instructor permission.  
3 Credits.

### History 311. Vengeance and Justice in Medieval Europe.

Exploration of intersecting notions of justice and vengeance in medieval European law, ca. 500 - 1500. Of special interest is the tension between customary, retributive forms of justice and the development of jurisprudence based on Christianity and ideals of Christian rulership. Includes a survey of select Old Testament and Roman laws.  
3 Credits.

### History 315. Seminar on the Age of Enlightenment.

Exploration of the leading intellectual, socio-cultural, and political developments in Europe between the end of the Wars of Religion and the French Revolution (1648 and 1789). Focus on the rise of the modern.  
3 Credits.

### History 330. Twentieth-Century American History Seminar.

Selected topics affecting twentieth-century American society. Focus on economic, social, and political change in the post-World War II era.  
3 Credits.

### History 350. Swedenborg's Life and Time. (II)

Exploration of the Swedish context of Swedenborg's intellectual and spiritual development, his call, and his revelatory works. Examines the geography, history, culture, and society of Sweden and the Baltic world in the eighteenth century.  
3 Credits.

### History 359. Death and Society in Ancient Greece.

Examination of ancient Greek attitudes and responses to death, including concepts of death, views of the afterlife, funerary rituals, and commemoration practices. Emphasis on what this evidence reveals about ancient Greek society, especially value systems, family relationships, social distinctions, gender, and law. Use of both archaeological and textual evidence.  
3 Credits.

### History 371. Heritage Interpretation.

Study of the theory and practice involved in interpreting historic and cultural heritage materials in order to reveal meanings and communicate messages. Includes consideration of interpretive planning, theme development, and visitor studies.  
3 Credits.

### History 298, 398, 498. History Internship II. (EE)

Proposals must be approved by the appropriate department chair. History internships are open to students in second year or above who have completed at least two history courses.

Credit variable.

## Human Society

---

### Human Society 305. European Folk and Fairy Tales.

Investigation of European folk and fairy tales and their relevance for understanding the societies that produced them. Provides a survey of major 19<sup>th</sup> century collections (e.g., Brothers Grimm) and introduces students to critical approaches to folk literature. Consideration of Hollywood adaptations and the continuing impact of folk and fairy tales on modern popular culture.

3 Credits.

### Human Society 401. Capstone Seminar. (II)

Students in the Human Society major engage in focused research for their capstone projects. The seminar setting provides instruction in related skills and offers a forum for support and the exchange of ideas. As part of the seminar, each student will generate a written research proposal, which will also be presented publicly. Each student also examines in depth a specific New Church concept related to the student's capstone project. Only open to Human Society majors.

3 Credits.

### Human Society 402. Capstone Seminar II.

Students in the Human Society major write their capstone projects. The seminar setting provides instruction in related skills and offers a forum for support and the exchange of ideas. As part of the seminar, students present the results of their research publically and design posters. Only open to Human Society majors.

Prerequisite: HSoc 401.

3 Credits.

## Independent Studies

---

In addition to the listed courses all divisions offer independent studies in a variety of fields. The purpose of an independent study is to allow well-qualified students to study beyond the regularly offered courses.

Independent studies are numbered 299 or 399, depending on the appropriate level. Academic divisions are under no obligation to meet requests for independent studies. Students who undertake independent studies must be able to work independently between meetings with the instructor. A full set of guidelines for setting up an independent study is available at the College Office. Briefly, in order to qualify to take an independent study a student must:

- Have completed at least 33 credits with a GPA of 2.7 or better
- Submit a proposal to the division head during the week prior to registration for the term in which the independent study is to occur.
- Submit an independent study card (signed by the division head and instructor) to be reviewed by the Academic Dean (College Office).
- The student and the instructor will complete a syllabus which will be submitted to the office before or during registration.

## Interdisciplinary Studies

---

### Interdisciplinary Studies 390. Research Seminar. (II)

For juniors in the Interdisciplinary Major. Focus on preparing to do the senior essay during senior year. Explore topics and research questions. Research scholarly sources related to a chosen topic. Formulate draft thesis statement based on interest and research.  
2 Credits.

### Interdisciplinary Studies 494. Senior Seminar I.

For seniors in the Interdisciplinary Major. Focus on developing a spiritual perspective on the student's capstone project using Swedenborgian and other principles. Prerequisite: C- or better in Interdisciplinary Studies 390.  
1 Credit.

### Interdisciplinary Studies 496. Senior Seminar II.

For seniors in the Interdisciplinary Major. Public presentation of senior essay. Career planning and portfolio development. Pass/Fail. Prerequisite: A passing grade on an interdisciplinary senior essay.  
1 Credit.

## Internships

---

### 298/398/498 Internships (in their academic areas) (EE)

Individually arranged career related internships. See Director of Internships for details.  
3 Credits.

## Latin

---

### Latin 110. Beginning Latin I.

Introduction to the elements of Latin grammar and syntax to be used in translating classical authors and Swedenborg.  
3 Credits.

### Latin 111. Beginning Latin II.

Continuation of Latin 110. Prerequisite: Latin 110.  
3 Credits.

### Latin 250. Swedenborg's Theological Latin I.

Intensive review of Beginning Latin, followed by varied readings in the Writings. Various styles of writing distinguished (expository, philosophical, descriptive, narrative). Special attention to non-Classical constructions. Prerequisites: Latin 110 and 111 or approval of the instructor.  
3 Credits.

### Latin 251. Swedenborg's Theological Latin II.

Continuation of Latin 250. Includes examination of original manuscripts and editions. Prerequisites: Latin 110 and Latin 111 or approval of the instructor.  
3 Credits.

## Mathematics

---

### Mathematics 095. Preparation for Quantitative Reasoning.

This course provides additional support for students enrolled in Math101. Topics include translating expressions, building equations, order of operations, and recognizing context. Credit from this course may not be used to satisfy degree requirements.

1 Credit.

### Mathematics 101. Introduction to Quantitative Reasoning. (QR)

Introduction to mathematical concepts to improve basic skills in computation, algebra, graphing, and quantitative applications. This course prepares students for other mathematics courses and courses involving quantitative reasoning. Topics include linear modeling, units of measure and currency, and statistical reasoning, and financial topics.

3 Credits.

### Mathematics 102. Understanding Mathematics in Society. (QR)

Review of mathematical topics with an emphasis on understanding why certain patterns appear. Topics include sets, number systems, geometry, and basic statistics and probability. Recommended for students in education and philosophy. Prerequisite: Math 101 or appropriate score on placement test.

3 Credits.

### Mathematics 115. College Algebra. (QR)

Algebraic topics designed to assist in the use of mathematics in science courses. Topics include exponents and radicals, rational expressions, inequalities, complex numbers, polynomial analysis and advanced factoring, rational functions and asymptotes, and quantitative reasoning applications. Because of duplication of subject matter, students may not receive credit for both Mathematics 115 and Mathematics 120. Prerequisite: Mathematics 101 or appropriate score on placement test.

3 Credits.

### Mathematics 120. Pre-calculus. (QR)

Course in college algebra designed to assist in the use of mathematics in science courses by reviewing the behavior of several families of simple and composite functions, and fitting these functions to data. Study of linear, exponential, power, logarithmic, polynomial, and rational functions. Includes quantitative reasoning applications. Because of duplication of subject matter, students may not receive credit for both Mathematics 115 and 120, and may not receive credit for both Mathematics 120 and 124. Prerequisite: Mathematics 101 or appropriate score on placement test.

4 Credits.

### Mathematics 124. Transcendental Functions. (QR)

Basic trigonometric functions, modeling periodic phenomena with trigonometric functions, exponential functions and models, exponential equations, and logarithms. When combined with Mathematics 115, these courses would be equivalent to typical pre-calculus course. Because of duplication of subject matter, students may not receive credit for both Mathematics 120 and 124. Prerequisite or Co-requisite: Mathematics 115.

1.5 Credits

### Mathematics 130. Introduction to Statistics. (QR)

Introduction to data analysis, random variables and their distributions, and statistical inference. Statistical software used for graphing and data analysis. Independent research project. Recommended for students of business or the social and natural sciences. Prerequisite: Mathematics 101 or appropriate score on placement test.

4 Credits.

### Mathematics 140. Elements of Calculus. (QR)

Derivatives with applications, exponential functions, integration with applications, and functions of several variables. Not recommended for students pursuing a degree in mathematics, engineering, or the physical sciences. Because of duplication of subject matter, students may not receive credit for both Mathematics 140 and Mathematics 150. Mathematics 140 does not fulfill prerequisite requirements for Mathematics 151.

Prerequisite: Mathematics 115 or appropriate score on placement test.

3 Credits.

### Mathematics 150. Calculus I.

Limits, differentiation, maxima-minima, integration with applications, transcendental functions. Because of duplication of subject matter, students may not receive credit for both Mathematics 140 and Mathematics 150. Prerequisite: B– or better in Mathematics 120 or Mathematics 124 or appropriate score on SAT or placement test.

4 Credits.

### Mathematics 151. Calculus II.

Methods and applications of integration, improper integrals, infinite series, Taylor polynomials, and parametric equations. Prerequisite: Mathematics 150.

4 Credits.

### Mathematics 205. History of Mathematics. (IL)

The development of the major mathematical concepts from ancient times to the present, emphasizing topics in the standard undergraduate mathematics curriculum. Prerequisite: Mathematics 140 or Mathematics 150.

3 Credits.

### Computer Science/Mathematics 230. Statistics and Data Mining.

This project-based course builds on what was learned in Mathematics 130 with an eye on big data sets. Topics include regression analysis, least squares, and decision-making based on inference. Special cases of the regression model, analysis of variance (ANOVA) and covariance (ANCOVA), and logistic regression models will be covered. Attention will be given to conditioning data sets for analysis and summarizing data and conclusions efficiently and effectively. Throughout the course, the programming language R will be used.

Prerequisites: B- or better in Mathematics 130, or Mathematics 330, or permission of department chair.

3 Credits.

### Computer Science/Mathematics 235. Discrete Structures.

Mathematical foundations for the analysis of computer systems. Recursive functions, sets, graph theory, and combinatorics. Prerequisite: Computer Science 180 or permission of instructor.

3 Credits.

### Mathematics 240. Linear Algebra. (QR)

Vector spaces, matrices, linear transformations, systems of linear equations, determinants, and eigenvalue problems. Introduction to mathematical proofs. Prerequisite: Mathematics 140, Mathematics 150, or Computer Science/Mathematics 230.

3 Credits.

### Mathematics 250. Calculus III.

Functions of several variables, partial differentiation, multiple integration, vector calculus. Prerequisite: Mathematics 151.

4 Credits.

### Mathematics 311. Ordinary Differential Equations.

Linear, second-order, and systems of differential equations and Laplace transforms. Prerequisite: Mathematics 151.

3 Credits.

### Mathematics 330. Introduction to Probability Theory.

Probability spaces, random variables, continuous distributions, joint distributions, correlation, and central limit theorems. This course has a computational component and can be used to fill a requirement in the Computer Science minor or ID area. Prerequisite: Mathematics 151 (Mathematics 240 recommended).

3 Credits.

### Mathematics 360. Advanced Calculus.

Formal definitions of limits, continuity, differentiation and integration. Prerequisites: Mathematics 151 and either Mathematics 240 or Computer Science/Mathematics 235.

3 Credits.

### Business/Mathematics 380. Linear Models and Methods for Optimization. (QR)

Introduction to basic methods of operations research. Review of linear systems; linear programming, including the simplex algorithm, duality, and sensitivity analysis; formulation of integer programs; transportation and scheduling problems. This course has a computational component and can be used to fill a requirement in the Computer Science minor or ID area. Prerequisite: Mathematics 240 and competence in programming.

3 Credits.

### Mathematics 493. Senior Literature Review.

General guidance in continuing research and review literature related to the chosen topic for the senior essay. Support for crafting a sound and interesting argument, resulting in an outline of main points for the senior essay. Prerequisite: Interdisciplinary Studies 390.

2 Credits.

### Mathematics 495. Senior Essay.

Capstone experience for the Interdisciplinary Major. Writing of the senior essay based on the research and outline produced in Mathematics 493. Prerequisites: Mathematics 493 and Interdisciplinary Studies 494.

2 Credits.

### Mathematics 499. Senior Project.

Independent study toward a mathematics project to be a companion to the Mathematics Interdisciplinary Senior Essay. Limited to and required of mathematics interdisciplinary majors.

Credit Variable.

## Music

---

### Music 100. College Chorale.

Development and performance of choral repertoire from Renaissance to Modern. Instruction in the development of vocal techniques. Course may be repeated for credit.

1 Credit.

### Music 101. Music Ensemble. (EE)

Development and performance of the classical string ensemble repertoire from Baroque to Modern. Private lessons, master classes, performance, and attending concerts. Audition is required. Upon acceptance, students expected to take all three terms. May be repeated for credit.

1.5 Credits.

### Music 110. Introduction to Western Music.

Survey of the composers, styles, and genres from western civilization with a focus on developing listening skills and understanding.

3 Credits.

### Music 113. Music Theory I. (QR)

Study of music theory and harmony, progressing from basic notation to advanced musical structures. Includes styles from the 18<sup>th</sup>-20<sup>th</sup> centuries.

3 Credits.

### Music 114. Music Theory II.

Continuation of Music 113. Prerequisite: Music 113 or permission of instructor.

3 Credits.

### Music 185. Private Music Lessons or Choirs.

Privately arranged music instruction. Instructor provides a written assessment of the student's progress at the end of the term. Private lessons are the financial responsibility of the student. Prerequisite: Consent of division. Course may be repeated for credit.

1 Credit.

### Music 210. Music of Christianity.

Examination of the creation and use of sacred music in the context of Christianity, from the earliest church organizations through the numerous and diverse denominations of today.

3 Credits.

### Music 298/398/498. Music Internship. (EE)

Requirements variable. Proposals should be submitted to the Department Chair. Art internships are open to students in sophomore year or above who have completed at least two art, dance, or music courses.

Credits variable.

## Nutrition

---

### Nutrition 110. Principles of Nutrition.

Principles of Nutrition explores how nutrients in food relate to human health and disease prevention. Topics discussed include current US dietary guidelines and recommendations, digestion and metabolism of major nutrients, nutrition at various stages of the life cycle (maternal, infant, childhood, adolescent, adulthood, later maturity), the relationship of socioeconomic status, culture, and religious practices to food choices, physical activity and nutrition, and the relationship of diet to health and disease. This course is especially beneficial for those who will be entering health-care or food related professions.

3 Credits.

## Physical Education

---

### Physical Education 103. Life and Health.

Introduction to personal and social health problems we all face today. This course provides information that helps the student understand and investigate these health problems further. Scientific knowledge is presented from a variety of disciplines, such as, medicine, psychology, physiology, and sociology. Non-repeatable.

1 Credit.

### Physical Education 110. Tennis.

Instruction in basic and intermediate individual skills. Practice in singles and doubles tennis play, including game strategy, rules, and etiquette. Course may be repeated once for credit.

1 Credit.

### Physical Education 112. Team Sports for Fun.

A survey of a range of team sports including for example, soccer, volleyball, lacrosse, ultimate, basketball, floor hockey. Student interest accommodated. Course may be repeated once for credit.

1 Credit.

### Physical Education 120. Physical Fitness for You.

Student-designed individual program based on theoretical and practical fitness concepts. Workouts during class twice a week in the fitness center. Course may be repeated once for credit.

1 Credit.

### Physical Education 127. Kickboxing and Self-Defense.

Basic instruction in a power-punching, non-choreographed martial arts workout. Emphasis on proper technique and execution of skills. Each class includes a total-body warm-up and cool-down/stretching period. Course may be repeated once for credit.

1 Credit.

### Physical Education 129. Badminton.

Basic instruction in skill techniques, rules, strategies, and competition in badminton. Course may be repeated once for credit.

1 Credit.

### Physical Education 130. Archery.

Basic instruction in skill techniques, rules, strategies, and competition in bow archery. Enrollment limited to eighteen students. Course may be repeated once for credit.

1 Credit.

### Physical Education 133. Yoga.

Introduction to yoga course. Variety of yoga (poses) including standing poses, twists and forward bends, arm-balancing, back bending and inversions. Open to all abilities. Course may be repeated once for credit.

1 Credit.

### Physical Education 180. Foundations of Physical Education.

This course gives the prospective teacher of Health and Physical Education (HPE) insight into this area, including the historical, philosophical, and sociological principles with a survey of the latest research and literature in the field. Lifetime health benefits related to proper nutrition and exercise physiology examined. The course is designed for students who are planning a career in education, health, or physical education.

Non-repeatable.

1 Credit.

## Philosophy

---

### Philosophy 101. Critical Thinking.

Development of students' reasoning skills through analysis and evaluation of arguments. Diagramming arguments, identifying mistakes in reasoning, and writing arguments. Emphasis on issues encountered in everyday experience and in courses across the curriculum, primarily through classical deductive logic.

3 Credits.

### Philosophy 102. Introduction to Philosophy. (Worldview)

Survey of some major philosophers and theories in metaphysics, epistemology, and the philosophy of religion.

3 Credits.

### Philosophy 111. Introduction to Moral Philosophy. (Moral)

Survey of some major philosophers, problems (Euthyphro, relativism, egoism), and theories (aretaic, deontic, utilitarian) in moral philosophy. Strongly recommended: Philosophy 101. Prerequisite: Philosophy 102.

3 Credits.

### Philosophy 210. Ancient Philosophy.

Historical consideration of ancient Greek philosophy (with emphasis on Socrates, Plato, and Aristotle) or Roman philosophy (with emphasis on Cicero, Aurelius, and Seneca). Strongly recommended: Philosophy 101.

Prerequisite: Philosophy 102.

3 Credits.

### Philosophy 211. Modern Philosophy.

Historical consideration of modern and Enlightenment philosophy, including Descartes, Locke, Leibniz, Rousseau, and Voltaire. Strongly recommended: Philosophy 101. Prerequisite: Philosophy 102.

3 Credits.

### Philosophy/Political Science 220. Political Thought. (Civil)

A consideration of political thinkers and theories, both ancient and modern, along with perennial issues in politics, such as justice, authority, liberty, order, equality, power, law, and forms of government. Strongly recommended: Philosophy 101. Prerequisite: Philosophy 102.

3 Credits.

### Philosophy 310. Topics in Contemporary Philosophy I.

Exploration of themes and problems in contemporary philosophy. Readings from analytic, continental, postmodern, or neo-pragmatist philosophers in areas such as the philosophy of ethics, politics, language, mind, law, science, religion, or other sub-fields. Strongly recommended: Philosophy 101. Prerequisite: Philosophy 102.

3 Credits.

### Philosophy 311. Topics in Contemporary Philosophy II.

Complement to Philosophy 310, but may be taken independently. Topics and emphases change periodically. Strongly recommended: Philosophy 101. Prerequisite: Philosophy 102.

3 Credits.

### Philosophy 320. Swedenborg's Philosophy I.

Swedenborg's cosmology. Consideration of 18<sup>th</sup>-century cosmological concepts (Descartes, Leibniz, and Wolff) and Swedenborg's unique answers to the issues raised. Particular emphasis on Swedenborg's Principia and the Infinite. Cosmological views developed in the Doctrines of the New Church and by New Church students of Swedenborg.

3 Credits.

### Philosophy 321. Swedenborg's Philosophy II.

Swedenborg's thought upward from the human body in his "search for the soul." Main text taken from the sections on Series and Degrees and The Human Soul in *The Economy of the Animal Kingdom*, terminating in applications in *The Rational Psychology*.

3 Credits.

### Philosophy 330. Advanced Moral Philosophy.

Exploration of themes and problems in ethics, such as the role of emotions in moral life, the relationship between happiness and moral life, the intersection of philosophy and law, the relationship between spirituality and morality, and a variety of current moral issues. Historical and contemporary philosophical texts, as well as passages from Swedenborg's theological and philosophical works used.

3 Credits.

### Philosophy 331. Organic Forms.

Correspondences of the human body compared with other human organisms: cells, societies, and the mind. Illustrations from natural science, social studies, and psychology. Prerequisite: Philosophy 330, or Philosophy 102 and Philosophy 111 and laboratory science course.

3 Credits.

### Philosophy 340. Bioethics. (Moral)

A philosophical exploration of the ethical issues pertaining to the application of biological information and technology to the generation, alteration, preservation, and destruction of human life and aspects of our environment. Issues to be considered include: reproduction, euthanasia, genetic screening and therapy, experimentation with human and animal subjects, bio enhancement, ownership and nature, distributive justice, and integrity in publication. Prerequisite: Philosophy 102 and any 100-level Biology course.

3 Credits.

### Philosophy 493. Senior Literature Review.

General guidance in continuing research and review literature related to the chosen topic for the senior essay. Support for crafting a sound and interesting argument, resulting in an outline of main points for the senior essay. Prerequisite: Interdisciplinary Studies 390.

3 Credits.

### Philosophy 495. Senior Essay.

Capstone experience for the Interdisciplinary Major. Writing of the senior essay based on the research and outline produced in Philosophy 493. Prerequisites: Philosophy 493 and Interdisciplinary Studies 494.

3 Credits.

## Physics

---

### Physics 180. General Physics I: Mechanics. (QR)

An algebra and trigonometry-based physics course that provides an overview of mechanics, thermodynamics and vibrations, primarily for students interested in majoring in biology (including pre-med), psychology or chemistry, rather than engineering or mathematics. Emphasis is on examples and applications rather than derivations. Credit is only awarded for one of Physics 180 or Physics 210. Pre-requisite: Math 125 or equivalent.

3 Credits.

### Physics 180 Lab. General Physics I: Mechanics Lab.

1 Credit.

### Physics 181. General Physics II: Electricity and Magnetism. (QR)

Continuation of Physics 180 with an overview of electricity, magnetism, light and optics. Credit is only awarded for one of Physics 181 or Physics 211. Pre-requisite: Physics 180, 210 or equivalent.

3 Credits.

### Physics 181 Lab. General Physics II: Electricity and Magnetism Lab.

1 Credit.

### Physics 210. Principles of Physics I. (QR)

Calculus-based course providing an introduction to rigid body mechanics, gravity, waves, and heat. Problem and laboratory assignments complement the lectures. Co-requisite or Prerequisite: Mathematics 150.

3 Credits.

### Physics 210 Lab. Principles of Physics I Lab.

1 Credit.

### Physics 211. Principles of Physics II. (QR)

Continuation of Physics 210. Calculus-based introduction to classical electricity, capacitance, current, resistance, and circuits. Also magnetism, inductance, electromagnetic oscillations, optics, and introduction to modern physics. Co-requisites or Prerequisites: Mathematics 151 and Physics 210.

3 Credits.

### Physics 211 Lab. Principles of Physics II Lab.

1 Credit.

## Political Science

---

### Political Science 101. Introduction to Politics and Governance. (Civil)

Examines the discipline of political science and the concepts involved in the study of politics and governance. Surveys regime types and the role and function of political institutions and organizations. Focus on the potential for thinking about civic and political issues from a religiously-informed perspective.

3 Credits.

### Political Science 210. American Government and Politics. (PP)

Examination of the American political system focusing on founding principles, national governmental institutions, and contemporary issues. Readings from original documents and historical and contemporary authors. Prerequisite: Political Science 101, History 230, or instructor permission.

3 Credits.

### Political Science 211. Comparative Government. (Civil)

Introduction to the comparative study of the politics of nations. Examines the underlying principles, machinery, and effectiveness of selected governments around the world, and ramifications for their societies.

3 Credits.

### Political Science 212. International Relations.

Examination of historical and theoretical foundations for thinking about international relations. Topics include: peace and conflict, international law, intervention, and terrorism. Recommended: Political Science 101 or History 117.

3 Credits.

### Philosophy/Political Science 220. Political Thought. (Civil)

A consideration of political thinkers and theories, both ancient and modern, along with perennial issues in politics, such as justice, authority, liberty, order, equality, power, law, and forms of government. Strongly recommended: Philosophy 101. Prerequisite: Philosophy 102.

3 Credits.

### Political Science 232. Issues in American Foreign Policy. (W)

Consideration of American foreign policy through an examination of dominant themes and a series of case studies highlighting both levels of analysis and decision-making theories. Prerequisites: Political Science 101, History 117, or instructor permission.

3 Credits.

### Political Science 260. Law and American Society.

An introduction to the American legal system examining the basic tenets of the American Legal system, including theories of jurisprudence and an examination of the Constitution as the framework for our legal system. Students will explore how laws are created and enforced through the court systems, legislatures, and administrative agencies. The course includes an introduction to legal research, case briefing, and mock trial.  
3 Credits.

### Political Science 318. Politics and Religion in America.

This course examines the connection between religious beliefs and institutions and political beliefs and institutions. It begins by exploring the influence of religion and religious attitudes during the founding of the republic and then surveys the broad scope of religious influences in contemporary American political life.  
3 Credits.

### Political Science 348. Politics and Religion in the Middle East.

Comparative examination of politics and religion in selected Middle Eastern states. Focus on national identities, political ideologies and institutions, as well as political cultures of societies in the region. Consideration of key issues facing the region. Prerequisite: Political Science 211, Religion 295, or instructor permission.  
3 Credits.

### Political Science 298, 398, 498. Political Science Internship. (EE)

Requirements variable. Proposals should be submitted to the appropriate Department Chair. Political Science internships are open to students in sophomore year or above who have completed at least two political science courses.

## Psychology

---

### Psychology 101. Introductory Psychology.

Introduction to basic constructs of psychology including scientific methodology, the brain, consciousness, memory, identity, learning, motivation, intelligence, and the nature of mental illness. Relevant New Church doctrines analyzed and compared to secular theories of psychology.  
3 Credits.

### Psychology 102. Worldviews and History of Psychology. (Worldview)

Survey of six major psychological worldviews. Analysis of worldviews in terms of their history, key people, main concepts, and major contributions to the field of psychology in modern times. Three themes addressed for each worldview: “What is the good life?”, “What remedies are available when things go wrong for human beings?”, and “Is this a Theistic worldview?”  
3 Credits.

### Psychology 201. Abnormal Psychology.

Examination of mental disorders as classified by the medical model, including schizophrenia and other psychotic disorders, mood disorders, anxiety disorders, dissociative disorders, disorders of childhood, eating disorders, and personality disorders. Critical analysis of the principles and philosophy of the medical model, as well as the physiological underpinnings of certain disorders. Alternative views for the conceptualization of mental disorders explored. Prerequisite: Psychology 101 or department chair permission.  
3 Credits.

### Business/Psychology 202. Human Resource Management. (PP)

(Also known as industrial and organizational psychology.) Exploration of the application of psychology to the workplace environment, such as business, government, and non-profit organizations. Major areas of study include work motivation, teams and teamwork, personnel decision-making, performance appraisal, leadership, and diversity in terms of gender, race, and personality type. Attention given to New Church concepts of conscience, discriminatory charity, and use as they apply to adult employment in our current workforce. Prerequisite: any psychology course, and any business or economics course, or department chair permission. 3 Credits.

### Psychology 203. Personality Theory.

Examination of both classical and current theories of personality. Focus on understanding terms and concepts of personality as well as their application to situational contexts. Prerequisite: Psychology 101 or department chair permission. 3 Credits.

### Psychology 204. Human Development: Lifespan.

Study of human development, focusing on the most significant changes that occur across the lifespan. Topics include theories of physical-motor, cognitive, language, creative, social, emotional, moral, and spiritual development. Prerequisite: Psychology 101 or department chair permission. 3 Credits.

### Psychology 205. Social Psychology. (PP)

Study of behavior and cognition in social contexts. Topics include aggression, altruism, influence, love, prejudice, and conformity. Swedenborgian concepts of love, charity, and obedience analyzed. Public Presentation skills emphasized. Prerequisite: Psychology 101 or department chair permission. 3 Credits.

### Psychology 220. Cognitive Psychology.

Survey of contemporary theories and research concerned with the structure and processes of the mind. The course will view cognitive psychology as the coordinated operation of mental processes within a multi-component memory system. Topics include attention, memory, the role of emotion, problem solving, and concept formation. Prerequisite: Psychology 101 or department chair permission. 3 Credits.

### Psychology 230. Psychology and Spirituality.

Examinations of psychological research and theories about people's attitudes, motivations, behaviors, thoughts and feelings in a variety of spiritual settings. Investigations of how therapists address spiritual matters in counseling sessions. Consideration of the psychological experience of the Swedenborgian belief in the afterlife, regeneration, charity, conscience, and the relationship between God and humans. Prerequisite: Psychology 101 or department chair permission. 3 Credits.

### Psychology 301. Counseling and Clinical Psychology.

Examination of psychological theories that inform the skills of counselors and clinical psychologists in various professional settings. Topics include psychological theories, the roles of the counselor, listening skills, case conceptualization, treatment methods and intervention strategies. Consideration of what it means to incorporate individual values and spirituality into treatment. Prerequisite: Two psychology courses or department chair permission. 3 Credits.

### Psychology 305. Physiological Psychology. (II)

Exploration of the neural basis of behavior and motivation. Emphasis on the structure, functions and disorders. Topics include memory, emotion, learning, addictions, conscience, states of mind, and self-regulation. Consideration of Swedenborgian view of the brain, mind, and the soul. Information Literacy skills emphasized. Prerequisite: Psychology 101 and either Biology 122 or department chair permission. 3 Credits.

### Psychology 307. Psychological Measurement.

Introduction to the principles that underlie the development, use, and interpretation of psychological assessment tools. Topics include: Test construction, survey development, scoring, assessment interpretation issues, and psychological assessment applications in industrial, educational, clinical, and research setting. Students will examine the potential and limitations of tests of intelligence, aptitude, achievement, interest, and personality. Additionally, psychological assessment will be discussed in terms of social, legal, and ethical concerns. Prerequisite: Psychology 101 and two other psychology courses, or department chair permission. 3 Credits.

### Psychology 320. Introduction to Experiments in Psychology.

Introduces students to experimental design in psychology with careful attention to terminology, methodology, strengths, and limitations of research. Additionally, students are exposed to classic experiments in the areas of social, abnormal, cognitive, developmental, and neuropsychology. Serves as precursor to the Psychology Capstone and should be completed spring term of junior year. Pass/Fail. 1 Credit.

### Education/Psychology 340. Educational Psychology.

Study of secular psychology as it is applied to children and adolescents in the classroom setting. Major areas of study include classroom management, learning, and motivation. Swedenborgian doctrines include innocence, charity, development of the rational mind, and conscience. Prerequisite: Psychology 101 or Education 128, or permission of department chair. 3 Credits.

### Psychology 341. Human Development: Adult Altruism. (EE, Moral)

Exploration of psychological theories about moral development, character strengths, altruism, optimism, flourishing, flow, generosity and spiritual maturity. Major emphasis on the states of adults over 18 years of age. Examination of Swedenborgian doctrinal principles regarding adult human development: regeneration, opening of the rational mind, developing a new will, acquiring wisdom, and leading a life of useful service to the neighbor. Ethical reasoning skills emphasized. Prerequisite: Two psychology courses. 3 Credits.

### Psychology 380. Seminar in Forensic Psychology.

Covers topics related to the application of psychology to the legal system. Topics include criminal motivation, deception, violence, sociopathy, mental illness and crime, gang behavior, effects of substance abuse, and gender differences in criminals. Includes a Swedenborgian perspective on conscience and moral/spiritual motives. Prerequisite: Students must be accepted psychology majors, psychology interdisciplinary majors, or psychology minors at the junior level of study. Applied. 3 Credits.

### Psychology 382. Seminar in Death and Dying.

Introduces students to the growing field of death and dying in psychology. Explores context and meanings of death, ethical decision-making at the end of life, constructs of bereavement, end of life counseling, and special populations to include pediatric death, celebrity death, near-death experiences, and traumatic bereavement.

Prerequisite: Students must be accepted psychology majors, psychology interdisciplinary majors, or psychology minors at the junior level of study. Clinical.

3 Credits.

### Psychology 385. Seminar in Positive Psychology.

This 300-level seminar offers an introduction to positive psychology, which is the scientific study of the practices and traits that lead to well-being, focusing primarily on the individual level, but also including the institutional level. Students explore the history of positive psychology and what it contributes to the larger field of psychology, tackling thorny questions, such as what is happiness? Should it be measured and/or deliberately promoted? And how do these topics relate to New Church teachings about overall well-being? Students taking this class should be prepared to practice several positive interventions during the term and offer personal reflections about their impact. In order to support the psychology department's focus on information literacy, peer-reviewed journal articles will be provided as readings in addition to the course textbook. Students must be accepted psychology or interdisciplinary majors or psychology minors at the junior year of study. Permission of the instructor is otherwise required.

3 Credits.

### Psychology 490. Research Methods in Psychology.

First capstone course for the psychology major. The investigation of psychology as a science with a focus on the qualitative and quantitative approaches to research in the area of psychology. It examines strategies for establishing validity in descriptive, relational, and experimental design in the framework of ethical research. Emphasis will be placed on critical reading and analysis of previously published scientific research. Students receive practice in designing, conducting, analyzing, interpreting the results of research studies, and writing reports in APA style. Students prepare proposal for Senior Essay. Prerequisites: Psychology 101, Psychology 320, and Mathematics 130. Students must be accepted psychology majors.

3 Credits.

### Psychology 491. Senior Research Seminar.

Capstone for seniors in the psychology major. Independent work on Senior Essay guided by an advisor. Information Literacy and Writing Skills emphasized.

3 Credits.

### Psychology 492. Senior Seminar.

Capstone for seniors in the psychology major. Public presentation. Critical analysis of ethics in psychology. Career planning and portfolio development. Pass/Fail.

1 Credit.

### Psychology 298, 398. Psychology Internship. (EE)

Proposals must be approved by the head of the Psychology area. Psychology internships are open to students in sophomore year or above who have completed two psychology courses. Requirements are available from director of internships.

Credit variable.

# Religion

---

## Religion 101. Introduction to New Church Doctrines. (Doctrinal)

Foundation course. Basic survey of the doctrines of the New Church. Presupposes little or no formal background in the study of the doctrines.

3 Credits.

## Religion 110. Introduction to Systematic Theology. (Doctrinal)

A comprehensive overview of New Church doctrine. Emphasis on core doctrines of the Lord, faith and charity, the Word, the afterlife, the mind, Divine providence, judgment, and marriage. Presupposes a moderate familiarity with New Church teachings.

3 Credits.

## Religion 115. Introduction to New Church Doctrine on Life After Death. (Doctrinal)

New Church teachings on the life after death studied in their own context and the context of the near-death experience and the history of eschatology. Text: *Heaven and Hell*.

3 Credits.

## Religion 123. Introduction to the Old and New Testaments. (Scriptural)

Introduction to the various parts of the Bible, the history of the Israelites and Jews, the geography of Palestine, with an emphasis on the different methods of biblical interpretation, with special emphasis on New Church interpretation.

3 Credits.

## Religion 125. The Holy Scripture. (Doctrinal)

The symbolic nature of the Word and the spiritual meaning within. The importance of the literal meaning and its interpretation. The Word in heaven and the church. Dual expressions in the Word. Heresies. The Lord and the Word. The Word in very ancient times. The universal church. The necessity of revelation.

Illustrations drawn throughout from the Old and New Testaments. Text: *The Doctrine of the Sacred Scripture*.

3 Credits.

## Religion 205. God, Man, and Creation. (Doctrinal)

Study of how the Lord created the spiritual and natural worlds, with emphasis on humans as the purpose of creation. Vital relationships between the Creator and His creation, with the special role played by humans. Focus on teaching about form, order, degrees, influx, and conjunction.

Text: *Divine Love and Wisdom*.

3 Credits.

## Religion 210. Divine Providence and Human Prudence. (Doctrinal)

The laws and fundamental principles by which the Lord governs creation. How the Lord removes evil from people while preserving their freedom. How the Lord brings good out of evil. Eternal life as the goal of providence. How providence uses natural conditions to serve this end. Why providence operates in secret.

Text: *Divine Providence*.

3 Credits.

## Religion 215. The Lord. (Doctrinal)

Introduction to New Church teachings about the Lord. Who is the God of the Biblical testaments? What was Jesus Christ's life on earth about? Special focus on seeing the Lord in the Scriptures, in scholarship, and in the teachings for a New Church.

3 Credits.

### Religion 220. The Torah. (Scriptural)

Detailed study of Genesis to Deuteronomy in their historical and cultural context. Discussion of translations, certain critical theories, and other related ideas. Treatment of the literal meaning in relation to its higher meanings and other doctrinal considerations.

3 Credits.

### Religion 221. The Histories and Prophets of the Old Testament. (Scriptural)

Detailed study of Joshua to 2 Kings, Psalms, and Prophets viewed in their historical and cultural context. Discussion of the difference between prophesy and history, relevance to modern life, and the significance of the literal meaning.

3 Credits.

### Religion 222. The Gospels. (Scriptural)

Detailed study of the four individual Gospels with attention to similarities and distinctions, historical context, and relationship to the Old Testament. Examination of the literal meaning and its significance to the modern life. Special attention to the nature of the First Advent and the testimony concerning Jesus Christ.

3 Credits.

### Religion 223. The Apocalypse. (Scriptural)

The Last Judgment on the human race, with analogy to spiritual crisis in the individual. The spiritual functions and impact of imagery in the book of Revelation and in the memorable relations in the Apocalypse Revealed. Text: *The Apocalypse Revealed*.

3 Credits.

### Religion 225. Spiritual Interpretation of the Bible. (Scriptural)

The Bible is more than a book of stories and laws. Exploration of the deeper symbolic meanings reveal that it is a story about individual spiritual development and growth. Addressing both Scriptures and personal application, with emphasis on the use of Swedenborg's science of correspondences, students uncover the hidden depths of a variety of biblical stories, which elucidate particular insight and meaning to individual spiritual growth and life.

3 Credits.

### Religion 260. Evangelization. (Applied)

Introduction to the doctrine of evangelization, the philosophy and application of Church growth principles, and practical instruction in how to present the doctrines to inquirers. Exploration of the changing values of Western culture and the ways the Church can effectively respond to a new generation of seekers. The purpose and process of evangelization, and how to share the teachings of the New Church with confidence and care.

3 Credits.

### Religion 270. New Church Religious Practices. (Applied)

Both doctrinal study and practical application of teachings relating to New Church religious practices, using the Old and New Testaments and the theological Writings of Emanuel Swedenborg as source material. Special focuses on daily reading of the Word and prayer, on private and public worship, on the steps of repentance, and on the use and importance of Holy Supper.

3 Credits.

### Religion 271. Moral and Spiritual Life. (Applied)

Various approaches to morality. The spiritual foundation of moral virtues and moral living. Consideration of civil, moral, and spiritual questions dealing with both individual and institutional conduct, such as revolution and the rule of law, the relation of church and state, spiritual and natural freedom, war, race relations, ethics in business and labor, the use of alcohol and drugs, and responsibility for others.

3 Credits.

### Religion 272. Advanced Religious Ethics. (Applied)

Advanced study of the Ten Commandments as they appear in the religious writings of Hinduism, Buddhism, Judaism, Christianity, Islam, and other world faiths. Study of the literal and spiritual level of each commandment using selected texts from sacred and secular sources. Students encouraged to draw connections between the various levels of the commandments and their own lives.

3 Credits.

### Religion 273. Religion and Marriage (W. Doctrinal)

New Church doctrine concerning marriage. Includes the Divine origin of marriage; the nature of masculinity and femininity; the state of married partners after death; betrothals and weddings; separation and divorce; the role of the Ten Commandments in marriage; states of discord and coldness; adultery and other sexual disorders. Text: Conjugal Love.

3 Credits.

### Religion 278. Exploring Romantic Relationships. (Applied)

Contemporary marriage education and relationship enhancement programs are studied in the light of New Church teachings. Focuses on the work of John Van Epp (preparation for marriage), John Gottman (making marriage work) and Tony Robbins (six human needs), but also touches on other marriage education programs.

3 Credits.

### Religion 283. Pre-Christian Religious History. (Comparative)

Survey of the history of pre-Christian religions emphasizing the rise, development, and fall of religions from ancient times to Biblical Israel. Topics include the character of revelation and the response to it in each successive religion, the origin of mankind, the origin of evil, and the rise of monogamy and polygamy, of monotheism and polytheism, and of idolatry in the ancient world.

3 Credits.

### Religion 284. Christian Religious History. (Comparative)

Thorough grounding in Christian history. Survey of the personalities, theological and doctrinal issues, and events of Christianity. Christian divisions and present world-impact. Comparison with New Church perspective.

3 Credits.

### Religion 285. The Modern Christian Church.

Challenged in and since the eighteenth century by philosophy, science, and changes in culture, the Christian Church had to respond to increasing pressure to adjust or become obsolete. This course traces the development of Liberal and Conservative schools of thought that led to different solutions to these challenges, explores the influence of Emanuel Swedenborg's theological writings on Christian thought, and focuses primarily on developments in Christianity in American life, culture, and politics.

3 Credits.

**Religion 293. Comparative Contemporary Religions. (Comparative)**

Survey of world religions as they are practiced today. Religions studied include Hinduism, Buddhism, Judaism, Christianity, Islam, and the New Church. This course includes three required week-end field trips to various religious centers.

3 Credits.

**Religion 295. Islam. (Comparative)**

Study of Islam: Muhammad and the origins of Islam, the Qur'an and Hadith, theology and practices, sects and schools. Comparison with New Church perspective.

3 Credits.

**Religion 296. Eastern Religious Thought/Hinduism. (Comparative)**

Introduction to Eastern Religious Thought with a focus on the *Bhagavad Gita*, considered one of the most revered of the Hindu scriptures, and one of the most important religious classics in the world. Course includes an in-depth study of the literal and symbolic levels of the *Gita*, a comparison with Western thought in general and with New Church thought in particular.

3 Credits.

**Religion 305. Universal Doctrines of the New Church I. (Doctrinal)**

Systematic survey of the universal theology of the New Church: God the Creator, the Lord the Redeemer, the Holy Spirit, the Holy Scripture and Ten Commandments, and Faith. Text: *True Christian Religion*.

3 Credits.

**Religion 306. Universal Doctrines of the New Church II. (W, Doctrinal)**

Continuation of Religion 305. Topics include faith, charity, free will, repentance, reformation and regeneration, imputation, baptism, and the holy supper. Special focus on the Second Advent and the New Church: what does God's coming entail? Text: *The True Christian Religion*.

3 Credits.

**Religion 310. Studies in Arcana Coelestia. (W, Doctrinal)**

Study of Emanuel Swedenborg's first publication of theology for a New Church. The course provides an overview of the work's spiritual exegesis of Genesis and Exodus--from the first mythopoeic stories of creation to the Israelites' escape from slavery in Egypt. Special focus on the Abram story and how the narrative of Jehovah's call to humankind contains an ancient picture of our relationship with a Human God.

3 Credits.

**Religion 311. Continuation of Studies in Arcana Coelestia. (W, Doctrinal)**

Study of Emanuel Swedenborg's first publication of theology for the New Church. The course provides an overview of the work's spiritual exegesis of Genesis and Exodus--from the first mythopoeic stories of creation to the Israelites' escape from slavery in Egypt. Special focus on the Jacob story, the Moses story, and how the narrative of Jehovah's call to humankind contains an ancient picture of our relationship with a Human God.

3 Credits.

**Religion 315. The Spiritual World. (W, Doctrinal)**

The nature, structure, life, and phenomena of the spiritual world. Consideration of the philosophical implications of the creation of that world and consideration of other beliefs about heaven and hell.

3 Credits.

**Religion 320. Judgment, Providence, and Human Society. (PP, Doctrinal, Applied)**

Study of the spiritual process of judgment, both personal and societal, and the roles human choice and Divine Providence play in judgment. Attention given to the role of judgment in human history, the judgments that have occurred, and the changes judgment brings. The books of the Heavenly Doctrines Last Judgment and Continuation of the Last Judgment will be read in full.

3 Credits.

**Religion 335. The Human Mind. (Rel335 W is W, Doctrinal)**

Study of what the doctrines of the New Church teach about the structure and function of the human mind and how it relates to the brain. The discrete degrees of the mind. The faculties of will and understanding, their relationship and interplay.

3 Credits.

**Religion 370. Topics in Applied Theology. (Applied)**

Content may vary from year to year. Consideration of the light shed by the doctrines of the New Church on the ethical and underlying philosophical concerns of different areas of study and occupations.

3 Credits.

**Religion 380. History of New Church Doctrine. (II, Doctrinal)**

Seminar in the development of doctrinal thought in the history of the New Church. Considerations of various and divergent interpretations. The evolution of ideas and their impact on the Church. Reflection on the intellectual heritage of the Church from an historical perspective. Extensive research in New Church collateral literature.

3 Credits.

**Religion 490. Religion Senior Project I.**

For religion majors. One term is required. May be repeated for a second term with the consent of the division head.

3 Credits.

**Religion 491. Religion Senior Project II.**

For religion majors. One term is required. May be repeated for a second term with the consent of the division head.

3 Credits.

**Religion 298, 398, 498. Religion Internship. (EE, Applied)**

Proposals must be approved by the head of division. Course may be repeated for credit.

Credit variable.

## Science

---

### Science 170. Introduction to Undergraduate Science Research.

Undergraduates work under the supervision of a faculty member on the faculty member's research project. Enrollment is by selection made by the sponsoring science faculty member and the science department chair. Students may be interviewed as part of the selection process. Interested students should check with the science department chair about available positions. Open to qualified college and high school students. Prerequisites: college students must have grades of B or better in at least two college science courses; high school students must have a grade of B or better in at least four high school science or math courses, and have completed at least two years of high school.  
1 Credit.

## Sociology

---

### Sociology 110. Introductory Sociology.

Introduction to the discipline of sociology and a sociological perspective for understanding human behaviors and the structure of human societies. Discussions apply a sociological perspective to topics such as social class, gender, race and ethnicity, culture, work, and social movements in order to understand how individual lives and social groups are shaped by social structures, cultural understandings and distributions of power.  
3 Credits.

### Sociology 212. Marriage and the Family.

Analysis of marriage and the family as fundamental institutions of human society. An exploration of the history of marriage and the family, as these institutions moved from traditional patterns focused on family dictates and necessity to modern patterns focused on individual choice and freedom.  
3 Credits.

### Sociology 218. Topics in Sociology: Ethnicity and Race.

Survey of ethnicity and race as a recognized sub-field in sociology and key factor in understanding human society.  
3 Credits.

### History/Sociology 290. Social and Religious Movements.

Exploration of selected social and religious movements. The history of these movements will be used to understand the sociological factors that contributed to their development, form, and impact.  
3 Credits.

### Sociology 321. History of Social Theory.

Exploration of the context of the development of social theory with particular attention to the different nature of the roots of theory in Europe and America.  
3 Credits.

### Sociology 340. Seminar in the Sociology of Religion.

Exploration of the relationship between the ideational and organizational components of religion and the major social variables, including gender, class, power, race and nationality. Historic and current religions and religious movements, including the New Church, examined both theoretically and empirically.  
3 Credits.

## Spanish

---

### Spanish 101. Introductory Spanish I

Introduction to the Spanish language for students without previous experience. Emphasis is placed on communication and the foundations of Spanish grammar. Spanish is the language of instruction.  
3 Credits.

### Spanish 102. Introductory Spanish II

Continuing introduction to the Spanish language. Prerequisite: Spanish 101 or equivalent as determined by placement test. Spanish is the language of instruction.  
3 Credits.

### Spanish 201. Intermediate Spanish I

Intermediate Spanish is designed to build upon a student's prior Spanish education. The course concentrates on four skills areas: listening, speaking, reading and writing, and is augmented by a wide array of cultural readings and film selections. The grammatical focus is the use of the preterite and imperfect verb tenses. Prerequisite: Spanish 102 or equivalent as determined by placement test. Spanish is the language of instruction.  
3 Credits.

## Theater

---

### Theater 110. Introduction to Performance Arts.

Study and practice of elementary acting, movement, and voice skills. Students examine verbal and nonverbal communication in solo and group performance, along with scene and script analysis. Improvisation and work on studied pieces, leading to a final performance. Study of the history and philosophy of performance styles from the ancient Greeks to the Elizabethans and modern theorists (Stanislavski, Artaud, Brecht, et. al.).  
3 Credits.

### Theater 120. Set Design and Production. (EE)

Hands-on introduction to scene design and production. Overview of the elements of scene design with emphasis on the process of designing a set. Research, sketching, drafting, model building, color application, and actual set construction within a budget. Students required to understand and use all of the equipment in the theater as it pertains to the design and will work with the play's director using the Mitchell Performing Arts Center as the classroom and will participate as a member of the run-crew for the winter Bryn Athyn College production. Final project involves the construction of the actual set. Course may be repeated once for credit.  
Credit variable.

### Theater 130. Set Design and Production. (EE)

Continuation of Theater 120: building and dressing the set from the designer drawings and elevations created in the fall. Finalizing of the design, including color elevations and prop design. Students required to understand and use all of the equipment in the theater as it pertains to the design and will work with the play's director using the Mitchell Performing Arts Center as the classroom and will participate as a member of the run-crew for the winter Bryn Athyn College production. Final project involves the construction of the actual set. Course may be repeated once for credit.  
Credit variable.

### Theater 150. Dramatic Performance. (EEC)

Students involved in the casts or technical aspects of certain dramatic productions may sign up for this course. Exposure to a variety of acting techniques, including the specialized work needed for productions that might range from Shakespeare's plays, to foreign plays in translation, to musicals. Script analysis, oral interpretation of character, performance movement, dance, and vocal techniques. Variable credit based on the student's involvement. 5-12 hours weekly in rehearsals/classes leading to a finished production. Course may be repeated once for credit.

1-3 Credits.

### Theater 210. Original Performance: Theater as Spiritual Practice.

Builds on fundamental acting skills of Theater 110. Examines archetypal patterns found worldwide in myths, stories, plays and sacred ritual. Students explore archetypes in their own lives by writing, acting in, and producing original plays. Prerequisite: Theater 110, Theater 120, or permission of instructor.

3 Credits.

### Theater 220. Set Design II. (EE)

Further practice in scene design and production including a more nuanced study of the elements of design with emphasis on the process of designing and making a scale model. Work with the play's director using the Mitchell Performing Arts Center as the classroom and participation as a member of the run-crew for the winter Bryn Athyn College production. Final project involves the construction of the actual set. Prerequisite: Thea120.

3 Credits.

### Theater 250. Advanced Dramatic Performance. (EE)

Students involved in the cast of the Bryn Athyn College theatrical production may sign up for this course. Students will work specifically with acting and performance techniques, characterization work, scene study, and script analysis while preparing for the annual play. They will also do some independent work. Specialized work needed for the specific production may include vocal training, dialect work, dance, etc. Variable credit based on the student's involvement. 5-12 hours weekly in rehearsals/classes leading to a finished production. Course may be repeated once for credit.

1-3 Credits.

## Writing

---

### Writing 100. Academic Writing.

Development of academic writing skills in preparation for Writing 101. Intensive grammar, spelling, and punctuation instruction and practice, in conjunction with an introduction to the structure and process of academic writing. Required only for provisionally admitted freshmen before advancement to Writing 101.

3 Credits.

### Writing 101. Expository Writing. (W)

Development of informative, critical, and persuasive writing. Emphases on grammatical control, precision of language, consideration of audience, rhetorical strategies, revision, information literacy, and articulation, development, and support of thesis. Three to five formal essays total, including substantial revision.

Individual conferences with instructor to discuss student's writing. Required of first year students. Non-native speakers of English may take Writing 101 sophomore year.

3 Credits.

### Writing 202. Writing About Literature. (W, IL)

Analytic study of literary genres—drama, short fiction, and poetry—with emphases on writing and research. Assumes basic skills in writing and information literacy covered in Writing 101. Three papers, including substantial revision. One longer paper and its research process require locating, evaluating, and incorporating multiple secondary sources. Individual conferences with instructor to discuss student's writing. Required of sophomores. Prerequisite: Writing 101.

3 Credits.

### Writing 211. Creative Writing. (W)

Workshop approach to various forms of creative writing, with emphasis determined by year and instructor. 2016-17 offering will focus on the area of Young Adult Fiction. Students study examples of successful YA fiction in the current marketplace, including but not limited to *The Hunger Games*, *Eleanor and Park*, and *Code Name Verity*, in order to explore and recreate the defining qualities of the various sub-genres. Completion of three polished chapters and a full plot synopsis. Individual conferences in addition to in-class meetings. Prerequisite: Grade of B- or better in Writing 101, or permission of instructor.

3 Credits.

### Writing 212. Creative Nonfiction Writing (W)

A study of contemporary creative nonfiction—the use of traditional literary devices to express factual content. This workshop-style course includes the creative memoir, the humorous anecdote, artistic biography, and the personal interview. We will also address imaginative text-messaging, effective emailing and the art of blogging. Students will read representative writers, critique each other's papers, and learn about the ethics of public discourse, especially in relation to the opportunities and challenges of the digital revolution and the World Wide Web. Prerequisite: Writing 101.

3 credits.

### Writing 213. Advanced Rhetoric and Composition. (W)

Intensive study of writing for students interested in developing rhetorical skills in composition. Attention both to concepts of classical rhetoric and to issues arising in the context of contemporary cultural environments and communications practices. Prerequisite: Writing 101.

3 Credits.

### Business/Writing 220. Business Communications. (W)

Workplace-oriented course designed to help students develop and refine the written and oral skills necessary to communicate effectively in professional settings. Students will review the purpose and style of business writing and complete a variety of focused writing exercises based on work settings and scenarios. Students will plan, compose, and analyze letters, memoranda, and electronic messages. They will also prepare and deliver brief oral presentations, collaborate with others, and revise business communication.

Prerequisite: Writing 101.

3 Credits.

### Writing 311. Advanced Creative Writing Workshop. (W)

Workshop for in-depth study of the craft of writing. Students will concentrate on one genre (poetry, fiction, or drama) and produce a polished portfolio of their work. Workshop sessions provide opportunity for rigorous and supportive feedback on works in progress with the goal of helping class members produce their best writing. Prerequisite: Writing 211 or 213.

3 Credits.

# Graduate Courses

## Master of Arts in Religious Studies Courses

### Core Courses

---

#### Church History 585. Modern Church History 1750 to the Present.

A study of the Christian Church in the wake of the Last Judgment, covering the modern and postmodern eras, examining theological and institutional trends of churches in response to the development of science and philosophy in the light of the increase of freedom of thought and action in Western culture. Guiding questions for the course ask, “How has the Last Judgment affected the continued development of the Christian Church?”, and, “Can the Christian Church remain relevant in the trajectory of the modern era?”  
3 Credits. Lecture.

#### Religious Studies 510. Methodological Approaches to Religious Studies-An Introduction.

This course is an introduction to three research methods that are of value in investigating topics in religious studies. The three are: scriptural hermeneutics, historical methods, and sociological methods.  
3 Credits.

#### Religious Studies 550. Swedenborg’s Life and Times.

Exploration of the Swedish context of Swedenborg’s intellectual and spiritual development, his call, and his revelatory works. Examines the geography, history, culture, and society of Sweden and the Baltic world in the eighteenth century.  
3 Credits.

#### Theology 514. Doctrine of the Lord.

The essential nature of the Divine, the incarnation and glorification, the Lord’s temptations and presence with the human race through the Divine Human.  
3 Credits.

#### Theology 518. Doctrine of the Word.

The nature of inspiration and revelation, including the structure and interrelationship of the Old Testament, New Testament and the Writings, and the role of the literal and spiritual sense.  
3 Credits.

### History

---

#### History 515. Seminar on the Age of Enlightenment.

Exploration of the leading intellectual, socio-cultural, and political developments in Europe between the end of the Wars of Religion and the French Revolution (1648 and 1789). Focus on the rise of the modern.  
3 Credits.

### **Church History 587. Divine Presence over Five Dispensations.**

History of the Lord's presence over the five dispensations or churches from creation to the present. Course explores the Most Ancient, Ancient, Israelitish/Jewish, Christian and New Churches in relation to how the Lord has accommodated to the changing spiritual needs of humanity. Studying the five churches in consecutive order demonstrates why the New Church is "new" and why it is conceived of as the last, or "crown" of all the churches.

1.5 Credits.

## **Philosophy**

---

### **Philosophy 521. Swedenborg's Philosophy.**

Swedenborg's thought upward from the human body in his "search for the soul." Main text taken from the sections on Series and Degrees and The Human Soul in The Economy of the Animal Kingdom, terminating in applications in The Rational Psychology.

3 Credits.

## **Psychology**

---

### **Psychology 501. Counseling and Clinical Psychology.**

Examination of psychological theories that inform the skills of counselors and clinical psychologists in various professional settings. Topics include psychological theories, the roles of the counselor, listening skills, case conceptualization, treatment methods and intervention strategies. Consideration of what it means to be a New Church therapist. Students participating in the optional lab will receive the fourth credit.

3 Credits/4 Credits with optional lab.

## **Sociology**

---

### **Sociology 540. Seminar in the Sociology of Religion.**

Exploration of the relationship between the ideational and organizational components of religion and the major social variables, including gender, class, power, race and nationality. Historic and current religions and religious movements examined both theoretically and empirically, including the New Church.

3 Credits.

## **Theology**

---

### **Theology 505. Universal Doctrines of the New Church I.**

Systematic survey of the universal theology of the New Church: God the Creator, the Lord the Redeemer, the Holy Spirit, the Holy Scripture and Ten Commandments, and Faith. Text: True Christian Religion.

3 Credits.

### **Theology 506. Universal Doctrines of the New Church II.**

Continuation of Religion 505. Faith. Charity. Free will. Repentance. Reformation and regeneration. Imputation. Baptism and the Holy Supper. The Second Advent. The New Church. Text: True Christian Religion.

3 Credits.

### Theology 513. Transitions, Perspectives of Death and Resurrection.

This course explores the nature of death and resurrection from three perspectives: sociological, psychological and theological. Questions related to the role of society in the death experience, of the psychological states leading to and from death, and the Swedenborgian teaching on the resuscitation process. This course is a good prelude to Theology 515 the Spiritual World.

1 Credit.

### Theology 515. The Spiritual World.

The nature, structure, life and phenomena of the spiritual world. Consideration of the philosophical implications of the creation of that world and consideration of other beliefs about heaven and hell.

3 Credits.

### Theology 520. Regeneration.

Overview of the states of regeneration, covering heredity evil, remains, repentance, temptations, conscience, forgiveness, and charity.

3 Credits.

### Theology 522. The Doctrine of Life.

Placed against the backdrop of the Ten Commandments, this course examines the nature and practice of religion, the reason why sins outlined in the Ten Commandments should be rejected, and the role of human choice and freedom in this process.

1.5 Credits.

### Theology 524. Conjugal Love.

The essential spiritual nature of marriage, preparation for it, its progressive states and challenges, and various disorders which are destructive of marriage.

3 Credits.

### Theology 526. The Human Mind.

The nature and degrees of the adult human mind as a vessel receptive of the Divine.

3 Credits.

### Theology 527. Old Testament Themes.

A topical approach to the Old Testament considering major doctrinal themes in the letter of different books of the Old Testament, different styles within these books, the context of this revelation, and historical issues related to the Old Testament texts.

3 Credits.

### Theology 528. New Testament Themes.

The characters of the Four Gospels, their inspiration, differences, major themes present in the individual Gospels and in the overall dispensation. (The Apocalypse will not be left out of this discussion, but is covered in greater detail in Theology 668.) There will be some attention to historical context, including a look at the Acts and Epistles.

3 Credits.

### Theology 530. The Gospels.

A look at the character of the Four Gospels as a revelation distinct from the Old Testament and Heavenly Doctrine given through Swedenborg. We will look at the qualities of each Gospel and consider what each contributes to the spiritual meaning of the Word. There will be some attention to historical context, including a look at the Acts and Epistles.

3 Credits.

### Theology 540. The Last Judgment, the Second Coming, and the New Church.

Consummation of the first Christian Church. The process of the Last Judgment. The Second Coming and its relation to the Doctrines of the New Church. The New Church and True Christianity.

3 Credits.

### Theology 570. Studies in the Arcana Coelestia.

Introduction to the celestial, spiritual and spiritual-historical meanings of the Word. The ancient churches. The representation of Abraham, Isaac, and Jacob. The Exodus. This course aims for a general knowledge of the first published works of the Doctrines of the New Church, and includes selected readings of approximately 500 pages.

3 Credits.

### Theology 580. History of New Church Doctrine.

Seminar in the development of doctrinal thought in the history of the New Church. Considerations of various and divergent interpretations. The evolution of ideas and their impact on the Church. Reflection on the intellectual heritage of the Church from an historical perspective. Extensive research in New Church collateral literature.

3 Credits.

### Theology 599. Independent Study.

An opportunity to explore subject matter which is not covered in the curriculum. Based on approval and availability of faculty.

3 Credits.

# Building Arts Workshops

**SUMMER 2017**

## **Blacksmithing**

---

**Steel Repousse 6/12-6/16**

**Warren Holzman**

Students will learn the fundamentals related to chasing and repousse in steel. Repousse is an exciting way to create relief images that exists somewhere between drawing and sculpture. The approach will focus on dynamic image development not unlike composition related to painting. Students will have the opportunity to work on larger scale pieces created over a wood stump. The course will cover design development, tool making, and finishing.

**Forged/Fire/Food - Cooking Tool Class 6/19-6/23**

**Jorgen Harle**

This class will use all the basic forging techniques, and a few advanced ones to explore the tradition of metal as a material to cook food over an open flame. Forks, tongs, spatulas, and spoons will be demonstrated and all students can expect to leave this workshop with some very functional cookware that will last for generations. Tradition and utility will drive the forms taught in this specialty tool class but personal expression and design will be enthusiastically pursued. Extensive R&D will be done at the end of each project (that's art speak for BBQ). Knives and cleavers will NOT be addressed in this class.

**Early American Wrought Iron Hardware 7/10-7/14**

**Luke DiBerardinis**

Learn the fundamentals of blacksmithing and improve your skills through the forging of historic hardware. Students can expect a daily demonstration of colonial hardware forging and will be able to customize their projects based on skill level. Topics and demonstrations will cover strap hinges and all their various finials, rams horn hinges, rat tail hinges, pintles, rivets, and clinch nails. Pull handles, thumb latches and all their parts, and installation procedures of the hardware will also be covered. All elements of blacksmithing will be utilized through these projects. By forging utilitarian and function, yet highly decorative pieces of house hardware, students will learn slitting, punching, drifting, upsetting, drawing, bending, forge welding, and fire management techniques.

**Volume and Form 7/17-7/21**

**Maegan Crowley**

This course is designed to stimulate your metal vocabulary. We will be forging structural materials; learning the tricks of forging pipe, tubing, and channel. Hot and cold sheet forming techniques will also be demonstrated. Pattern making and layout methods will be discussed as we use sheet metal to achieve volume. Students will then have the opportunity to combine techniques to create their own forms. We will also address fabrication methods and metal finishing. There will be an emphasis on individual expression as the instructor works with each student to develop their own representation of form. Bring a sketchbook and an open mind.

## Mosaic

---

### Glass Mosaic 7/10-7/14

#### Carol Stirton-Broad

Mosaic Art is having a resurgence in the United States and glass in many forms is playing a major role in this new wave of artistic creativity. In this workshop we will look at several of these types of glass, focusing on the traditional Italian Smalti and comparing it to the products from Mexico, China, and the United States. In addition, we will have a sampling of other materials available including some marble and stone. Each participant will produce a small sampler using traditional techniques. Next you will design a larger piece, using these materials in your own style. We will cover design transfer and realize the final work of art using the direct method. There are a limited number of hammer and hardies available for you to try as well as a collection of glass nippers for you to experiment with.

## Stained Glass

---

### Munich Style Glass Painting 6/19-6/23

#### J. Kenneth Leap

Learn the art of mixing, applying and firing glass-based paints, enamels and stains. This class will start with the core skills of traditional glass painting – tracing and matting. We will then concentrate on 19<sup>th</sup> century figurative techniques as exemplified by the Munich Style. Students can choose to practice replicating brocade patterned drapery, foliage, ornamental architectural borders and of course painting the figure. This course will introduce a variety of processes for mixing and layering pigments with exotic mediums. Glass selection and enamel work for flesh will be explored in depth. This class will be of specific interest to restoration painters and to all who admire the techniques of the 19<sup>th</sup> century. This class is designed to complement the workshop “Stained Glass Repair & Conservation” with Steve Hartley offered July 10-14, 2017.

### Stained Glass Conservation 7/10-7/14

#### Steve Hartley

This hands-on course will introduce proper evaluation and documentation techniques for stained glass conservation. Students will participate in repairing a 19<sup>th</sup> Century stained glass window while practicing conservation techniques including cleaning, copper foil repairs, and chemical edge bonding. Restoration painting including glass selection and color matching historic pigments will be discussed and practiced.

### The Art of Glass Painting 7/17-7/21

#### Jim M. Berberich

You can master the art of glass painting. The simple methods we will use in class have been proven effective and will give you the skills needed to achieve your goals. As you can imagine, for the thousand years that this applied art form has been in existence, a multitude of techniques have been created. The different approaches have added confusion to this medium. We will focus on some traditional methods with a twist, going into detail on how and why these methods work. There will be demonstrations, open discussion and a lot of one on one guidance from the instructor. The objective of the class is for the student to leave with confidence, and an understanding and knowledge of how to create beautiful glass paintings. The class projects will include portraits and life subjects, using vitreous paints, enamels and stains.

## Stone Carving

---

### Cathedral Stone Carving 6/19-6/23

#### Jens Langlotz

Participants will have a rare opportunity to work in the shadow of a working cathedral. Join master mason Jens Langlotz in the historic Bryn Athyn stone shops. Brief demonstrations of techniques will prepare you for shaping your own piece. The workshop covers stone types and properties, the use of different kinds of chisels for texturing, the fundamentals of letter design, both low and high relieve carving, and rosette design. You may choose to copy an architectural detail from Bryn Athyn Cathedral, such as one of the rosettes on the side of the building, or make an original piece of your own. No experience is necessary, and more advanced students are always welcome.

### Cathedral Stone Carving 7/10-7/14

#### Jens Langlotz

Participants will have a rare opportunity to work in the shadow of a working cathedral. Join master mason Jens Langlotz in the historic Bryn Athyn stone shops. Brief demonstrations of techniques will prepare you for shaping your own piece. The workshop covers stone types and properties, the use of different kinds of chisels for texturing, the fundamentals of letter design, both low and high relieve carving, and rosette design. You may choose to copy an architectural detail from Bryn Athyn Cathedral, such as one of the rosettes on the side of the building, or make an original piece of your own. No experience is necessary, and more advanced students are always welcome.

# Master of Divinity Courses

The administration will make every effort to offer the courses listed in this catalog but reserves the right to cancel courses if necessary.

## Church History

---

### Church History 682. History of the Most Ancient, Ancient, and Israelitish Churches.

A study of the doctrinal teachings concerning the pre-Advent churches; their rise and fall, with emphasis on the human states of reception and the operations of the Lord in reference to those states in each of the churches. Their sequence is examined in such a way as to illustrate spiritual fullness, despite the recurrent introduction of evil into those churches by men. Special emphasis is laid upon the subject of correspondences and representatives, and their central significance in every church. Seminar.

3 Credits.

### Church History 684. The Christian Church: Rise and Fall.

Growth of the Christian Church from its primitive beginnings through its decline, the Reformation through modern developments. Emphasis is on the history of the various teachings of the Lord, and how these both reflected the times they were devised in, and how they have impacted the development of the Church.

Seminar.

3 Credits.

### Church History 686. Swedenborg's Life and Call.

A brief survey of Swedenborg's life and preparation to receive the new revelation. A more detailed examination of his transition period (1743-1748). The writing and publication of Swedenborg's theological Writings and public response during his life. Seminar.

3 Credits.

### Church History 687. New Church History.

Chronological and topical study of the rise and early development of the New Church in Europe and North America. The rise of the Academy movement and the development of the General Church of the New Jerusalem. Consideration of selected issues in modern church history. Emphasis on the history of doctrine.

Seminar.

4 Credits.

## Homiletics

---

### Homiletics 911. Principles of Exposition.

Study of the letter of the Word in reference to the doctrine of genuine truth, the science of correspondences, and the spiritual sense of the Word. Study of the principles of exposition in application to selected texts in the letter of the Word.

Seminar.

3 Credits.

### Homiletics 921. Sermons from Old Testament Texts.

Theory and practice of sermon writing. Sermons will be from various styles in the Old Testament: from a made-up historical story, from an actual historical story, from a psalm. Workshop.  
3 Credits.

### Homiletics 922. Children's Talks.

Philosophy, preparation and presentation of children's talks.  
1 Credit.

### Homiletics 923. Sermons from the Prophets and New Testament Texts.

Theory and practice of sermon writing. Sermons will be from the Prophetic style of the Old Testament, and from various styles in the New Testament. Workshop.  
3 Credits.

### Homiletics 932. Sermons: A Variety of Topics and Focus.

Writing general purpose and festival sermons. Emphasis is upon organization of material for ease of presentation. Workshop.  
3 Credits.

### Homiletics 933. Sermons for Traditional and Contemporary Services and Memorial Addresses.

This term of homiletics will provide the background for writing memorial services including dealing with challenging issues in the life of the deceased or surviving family as well as further development of sermon writing as well as a consideration of the differences between sermons for traditional and contemporary settings. Workshop.  
3 Credits.

## Pastoral Theology

---

### Pastoral Theology 841-842. Doctrine of the Priesthood and Principles of Church Government.

An analysis of the doctrine concerning the two interrelated uses of the priesthood, teaching and learning. External and internal evangelization. Leading by means of representatives in worship. Government by influx as in the heavens, and by afflux as in the hells. How these two are applied to the government of the church. Two-term Workshop.  
1 Credit.

### Pastoral Theology 844. Introduction to Pastoral Counseling I. Seminar.

An examination of the basic principles of counseling for individuals, including three facilitative conditions, three action conditions, and the micro boundaries inherent in all communication. Basic listening and responding skills are practiced in small groups and in role plays. Special emphasis is placed on recognizing problems that need to be referred to other professionals, when to make such referrals, and to whom these referrals should be made. Teachings from the Heavenly Doctrines are included that support the counseling process. Text: On Becoming a Counselor by Kennedy and Charles.  
3 Credits.

### **Pastoral Theology 845. Introduction to Pastoral Counseling II. Seminar.**

An examination of the basic principles of counseling for couples and families including the concepts of homeostasis, fusion, triangles, boundaries, and differentiation of a self. Basic listening and attending skills are practiced in small groups and role plays looking to applications in couples counseling. A seven session format for couples counseling using the Imago model is presented and skills for implementing the program are practiced. Text: Short Term Couples Therapy the Imago Model in Action by Wade Luquet.

3 Credits.

### **Pastoral Theology 848. Priestly Duties.**

Pastoral responsibilities. A broad review of the practical responsibilities of a General Church of the New Jerusalem pastor.

Workshop.

1 Credit.

### **Pastoral Theology 851. Liturgics: Doctrinal Foundations.**

Introductory course exploring the doctrinal underpinnings of traditional and contemporary General Church of the New Jerusalem (GCNJ) ritual. The focus is on how and why the GCNJ office came into being, exploring the development of liturgical practice in the New Church from its earliest days to the present. Focus of study will be in the issues of external and internal worship, the role of ritual in worship, the house or place of worship with its symbolism. Workshop.

1 Credit.

### **Pastoral Theology 852. Liturgics: Orders of Services for Worship.**

A practical course on constructing an order of service, examining the place and use of music, singing, the letter of the Word, prayer, lessons, the children's talk, sermon and benediction. There will be a major emphasis on developing a familiarity with the liturgy and practice of leading worship according to the standard General Offices, as well as contemporary, informal and home settings. The aim of this course is to prepare students to be able to comfortably lead a service in a variety of settings before their Candidate experience requires them to do so. Workshop.

1 Credit.

### **Pastoral Theology 853. Liturgics: Rites and Sacraments.**

Conclusion of liturgical studies. A review of the doctrines associated with liturgics with additional study of the doctrines around the sacraments and rites of the New Church and their incorporation into services, or as free-standing services. Examination of variations from the General Offices in liturgical practice, to accommodate the tastes of New Church members while maintaining the integrity of doctrinal understanding of liturgics. Design of orders of service and practice are a central part of this workshop.

Workshop.

1 Credit.

### **Pastoral Theology 860. Conflict Resolution.**

Examination of methods of resolving conflicts in a variety of settings. Communication skills based on New Church doctrines (angels settling disputes), and best practices in human resource management and organizational psychology. Each of the specific communication skills will be analyzed in terms of the levels of effectiveness: Excellent, Good, Sub-par (too passive) and Destructive (too aggressive). Conflict resolution include methods such as agreeing to disagree, presenting the tough issue, discovering other viewpoints, remaining firm but friendly, and repairing the damage. Students will practice until they demonstrate competence at the level of Excellence. Attention given to basic mediation training skills as needed by pastors. Seminar.

3 Credits.

## Pastoral Workshops and Programs

---

### Business 864. Pastoral Business.

The focus of this course will be an exploration of management and administrative activities, societal and legal obligations, budgeting and financial affairs, volunteer and employment issues, outreach and marketing functions, mission accountability, responsibilities to stakeholders, fund and friend raising, plus community relations from the perspective of a religious organization. In addition, the course will explore operational and long term planning along with the implementation of strategic initiatives to fulfill the organization's mission while improving efficiency and effectiveness. Seminar.

3 Credits.

### Communication 716/718. Topics in Communication.

Communication is one of the most important activities we engage in as humans. It is how we connect with the Lord, each other, and our world. As a pastor, learning to communicate effectively is essential. This course will explore communication topics and their practical application. Topics will include the role of persuasion in communication, listening skills, and available communication tools for pastors. The course will also address leadership and how to lead through change. A significant portion of the course will deal with structuring an effective oral message.

3 Credits.

### Education 631. Instructional Methods and Design for Religion.

A seminar survey course on educational methods for theological school students. Students are encouraged to reflect on their own experiences in education, analyze best teaching practices in light of the Heavenly Doctrine and develop ways to apply what they have learned in a variety of settings. Students work cooperatively and individually to design effective religious instruction. When designing instruction emphasis is placed on aligning learning goals, instructional methods and assessment practices. Seminar.

3 Credits.

### Education 634. Institutional Design. Workshop.

Delivering and Managing Religious Instruction is a series of 10 workshop that focuses on supporting theological students while they apply in at least two setting the concepts they learned in Ed 631. Students are introduced to beginning level classroom management skills and asked to evaluate the skills in light of the Heavenly Doctrine.

1 Credit.

### Experiential Learning.

Theologs spend an average of three hours a week for 30 weeks a year, in their Service Learning Assignments. Usually there is a change in assignment every ten weeks. The assignments involve interacting with people as aides to ordained and non-ordained leaders in this community. All of the assignments give the theologs direct experience relating to people in settings that are similar to what they will encounter, once they themselves are ordained ministers. Students are assessed by onsite supervisors and their classroom professor on nine connecting skills. They are rated as demonstrating an Excellent, Good, Sub-par or Destructive level for each of the nine skills. Students meet as a group once a week for about an hour to receive coaching from their professor, who possesses advanced training and skills in this area. Service Learning is usually part of the curriculum for first and second year theological students, for a total of 6 terms.

Workshop.

1 Credit.

### Workshop 700. Convocation.

Weekly meeting for all students. Subject matter is widely varied from general discussions of any issues of interest to students to reports from students about their practicum. Many of the periods will be devoted to guest speakers addressing challenging human issues such as alcoholism, domestic abuse, special needs children, etc.

No Credit.

### Workshop 710. Pastoral Orientation.

Introductory study of the doctrine of the priesthood, with emphasis on the origins, the uses of, and the workings of ministry. Sections on love of salvation of souls, conscience and effect of evil on the priesthood.

Workshop.

1 Credit.

### Workshop 720. Speech I: Public Speaking and Interpersonal Communication.

Introduction to communications theory: Self as communicator, communication process, perception in communication, and effective communication—qualities and barriers. Emphasis on applications to professional work of the priest.

Workshop.

1 Credit.

### Workshop 724. Speech II: Concepts in Interpersonal Communication.

Introduction to oral interpretation of literature. Advanced interpersonal communication theory and skills development. Workshop.

1 Credit.

### Workshop 728. Speech III: Advanced Concepts in Public Speaking and Interpersonal Communication.

Advanced interpersonal communication theory, skills development, and practice.

Workshop.

1 Credit.

### Workshop 738. Experience in Preaching.

When a student is made a candidate, usually in the spring of the next-to-last year of his studies; he preaches and gives classes, using approved material. Includes weekend assignments to nearby societies, circles, or groups. Workshop.

No Credit.

### Workshop 750. Practicum.

Fall term of a student's final year is spent doing pastoral work in a New Church congregation. Required of candidates for the ministry. 10 Week Practicum.

No Credit.

## Theology 601. Heavenly Doctrines as Systematic Theology.

An introductory course required of all Theological School students. Its purpose is to provide for the students the framework, the context, and the direction of the Theological School program. It introduces the students to the major doctrines presented in the theological Writings of Emanuel Swedenborg or Heavenly Doctrines along with their core teachings, to the relationship among the major doctrines, to fundamental terms in the Heavenly Doctrines, to important ideas about and arising from the Heavenly Doctrines, and to important perspectives on theology in general and on the Heavenly Doctrines in particular. Seminar.

3 Credits.

## Theology 612. Doctrine of the Lord.

The systematic teachings of Swedenborg's theological Writings about the Lord: His essential nature from eternity; His relationship with us before the advent; why He needed to "come"; what He accomplished (redemption); how He accomplished it (glorification of His human); the enduring effect of the glorified Divine Human, and of His presence through it. In considering the Lord's glorification process we look at His conception, heredity, and development in the human. We especially look at the nature of His temptations, which were the means of His subjugating the hells. Seminar.

3 Credits.

## Theology 614. Studies on the Glorification: I.

The Lord's childhood. Acquisition of knowledge. Early temptations. The first rational. Divine perception. The Divine Rational. In-most temptations. (Arcana Coelestia, chap. 12-22).

Seminar.

3 Credits.

## Theology 616. Studies on the Glorification: II.

The conjunction of good and truth in the Lord's Divine Rational. Conception and birth of the Divine Natural. Appearances of truth. The glorification of the Natural. Mediate good. The conjunction of natural truth with spiritual good, and of the Divine good natural with the good of truth. (Arcana Coelestia, chap. 23-33). Seminar.

3 Credits.

## Theology 620. The Revelation Given to the New Church.

The nature of the theological Writings given to the New Church through Emanuel Swedenborg. Its relationship to former revelations. Approaches to forming a doctrine for the church in response to the new revelation. The nature and role of that doctrine. Seminar.

3 Credits.

## Theology 626. Themes in the Old Testament.

The character of the Old Testament, seen in the light of the theological Writings of Emanuel Swedenborg (the "Heavenly Doctrine"). The nature of its inspiration and its place in the history of revelation. A look at the major themes in the literal sense that are the basis for its spiritual meaning. Seminar.

3 Credits.

### Theology 628. New Testament Themes.

The character of the Four Gospels, their inspiration, differences, major themes present in the individual Gospels and in the overall dispensation. (The Apocalypse will not be left out of this discussion, but is covered in greater detail in Theology 668.) There will be some attention to historical context, including a look at the Acts and Epistles. Seminar.

3 Credits.

### Theology 640. Seminar on the Divine Providence.

A study of the Lord's government with a focus on the laws and fundamental principles regulating the His interaction with people and their response to Him, as seen in the work Divine Providence. Comparison with Apocalypse Explained treatment of "laws of Divine Providence." Relation of Providence to free human activity. Seminar.

3 Credits.

### Theology 642. The Human Mind and its Regeneration.

The human mind as a vessel created by the Lord to receive and respond to Him, and ultimately to fulfill His end in creation: a state of conjunction between human beings and Himself, i.e. heaven. Structure and faculties of the mind, influx of life into the mind. The greater part of the course focuses on the Lord's work of regenerating human beings for heaven and the role of human beings in cooperating with it. Stages and states of regeneration, from birth to the final formation of a person's ruling love ("Book of life"). Seminar.

3 Credits.

### Theology 646. Conversations on Marriage.

A study of the doctrines about marriage as contained in the work, *Conjugal Love*, with an emphasis on the pastoral issues concerning marriage. Concerned primarily with the teachings related to eternal marriage and the happiness brings, this course also deals with current issues of gender difference, with the disorders of society, and the breakdown of the love of marriage. Seminar.

3 Credits.

### Theology 660. Doctrine of the Spiritual World: I.

Death, resurrection, early states after death, vastation, punishment.

This course covers the essential doctrine of death and resurrection. It traces the progress of spirits through the World of Spirits, including the process of individual judgment to heaven or hell, vastation and punishments of the evil. The course also explores the influence of the World of Spirits in human life in the natural world by means of spheres and associate spirits. Seminar.

3 Credits.

### Theology 662. Doctrine of the Spiritual World: II.

Realities of spiritual world, correspondences of Grand Man, Heaven and Hell.

A continuation of Theology 660. This course traces the continued process of a spirits as they enter into either heaven or hell. It also explores the divisions of the Spiritual World and the distinctive features of heaven and hell, the doctrine of the Grand Man, the life of children in heaven and the qualities of hell. Seminar.

3 Credits.

### Theology 668. The Apocalypse and Last Judgment.

Using the book of Revelation and the Apocalypse Revealed as guides, this course explores the process of the Last Judgment in 1757. Particular emphasis is placed on the Biblical correspondences that describe the states of the church and individuals in the Christian era, and how these states led to the downfall of the Christian Church and the establishment of the New Church. Seminar.

3 Credits.

**Theology 690. Doctrine Concerning New Church Evangelization.**

The need for New Church education and evangelization and some of the doctrinal principles involved in it. Workshop.  
3 Credits.

**Theology 691. Doctrine Concerning New Church Education.**

The purpose of this course is to provide an introduction to doctrinal concepts and applications drawn from these concepts that have guided concerning New Church education. It will prepare the students to effectively present these ideas in a variety of contexts. Resources and consultation available from the General Church of the New Jerusalem Office of Education are also introduced. Workshop.  
2 Credits.

**Theology 695. Dissertation Writing.**

A serious study and written dissertation demonstrating the ability to present and explain doctrine. Required of all degree students. Individually advised.  
3 Credits.
